

Astrological Prediction for the year 2013-14 by Sri Gopala Krishna Murthy

(Note: Please be cautious in chanting of mantras as some of them involve complex pronunciations.)

The name of this New Year is “Jaya”.

Introductory Words:

WTT has run under the guidance of Master EK for 12 years and from then on, for the past 30 years, all the groups of WTT have progressed under the guidance of Master Parvathi Kumar. Master EK has guided us for a Jupiter cycle and Master KPk has guided us for a Saturn cycle. I just wanted to recollect this fact for our own upliftment. Master has done tremendous work and many of us know very little of the activities that are happening through him. So I prostrate at the feet of Master and Mother Kumari and their family for their contribution to WTT and towards our progress. We are all living under Master's shade and it our responsibility to recognise their work, not for his benefit but for our own benefit. We can reciprocate his contribution by giving him happiness in a way by following his teachings sincerely.

I quote the words of Master Koot Hoomi, “To know, to will, to act and to be silent”. I observed these 4 qualities in the life of Master Parvathi Kumar and we are all very lucky to have such a Master to guide in our Spiritual Aspirations.

With these words, I move onto the astrological prediction for the year.

Astrological Prediction for the year:

In Kali Yuga, we have completed 5115 years. The Kali yuga is said to have begin in 3102 BC and most of you know the period of this Yuga as 432000 years. We have Dwapara, Treta and Kruta yugas as twice, thrice and 4 times the period of Kali Yuga. All the 4 Yugas added together is called Maha Yuga and 1000 such Maha yugas form 1 manvantra and 14 such manvantaras form one day of Brahma, 360 such days of Brahma form 1 year and 100 such years is the life time of Brahma. So in this manner, the magnitude of time is magnanimous. In the present day of Brahma, 6 Manvantaras passed and in the 7 th Manvantara we are in the 28th Maha Yuga.

Coming to this year of 2014, this is expected to be a very decisive year for the whole humanity and especially India. As India progresses and takes lead among all the nations, it leads to the progress of the other nations as well. This year, try to maintain positive thoughts as far as possible. As Master said, charity is also very important. Try to spend some time in sunlight. Take good amount of water, fresh fruits and vegetables. Try to lead a simple life as far as possible. Try to meditate by aligning with your heart Centre.

There will be some very good changes as expected, in this year. That change cannot happen without turmoil and it has to be accepted for the good. In Spiritual Astrology Master EK writes, “the change takes place towards good with much turmoil, bloodshed and violence.” So that is how the upcoming change is going to be. I am not suggesting that there would be any wars taking place but there will be minor tensions among countries and natural disasters.

There is lot of thought pollution that is prevalent in the world and we should try to stay out of it as far as possible. Though positive energies are being transmitted around the planet from the higher circles, we should make our effort to receive them by overcoming the thought pollution.

Coming to the world. There will be certain changes in the north and south poles which result in some changes in the world. Those changes are expected to happen in recent future. There may be certain natural disasters that man has to face due to those changes. Some may be due to natural reasons while some are due to man-made reasons.

There are lot of groups around the world praying for the welfare and peace of humanity. We should be wishful that peace and welfare would be surely established in near future.

Norway, Brazil, Nigeria will get Good governments this year. There will be some changes in countries like Russia which is under the process of re-organisation. France & Italy may also undergo some internal changes which may be severe as well. England, Denmark, Germany, Holland, Japan, Syria will gain more respect in the world community. The foreign relations of countries like Egypt, China, Argentina, and Tibet will be enhanced. China may be responsible for some turmoil owing to its nature to conquest. Belgium, Australia and Syria may face some internal turmoil.

Coming to India, the status of India among the world countries will go up. Foreign policies will become better. Agriculture will improve a lot. There will certain problems due to disunity among the political leaders but in the process, there will be cleansing happening. We should all worship that we should be ruled in the right manner. Who rules does not matter to us but being rules in the right manner is what matters. It only happens by the grace of the Lord.

Now coming the individual sun signs.
