

Dear Members of the World Teacher Trust.

Hearty fraternal greetings and good wishes,

1. Initiation is but expansion of consciousness which happens when knowledge is applied to daily life.
2. Initiation enables wider horizons of comprehension.
3. Initiation is denied to the selfish. Compassion to fellow beings is fundamental to initiation.
4. Learning to include the surrounding life and to find the way to serve immediate surroundings is true discipleship.
5. Learning and serving causes gradual expansion. Sudden expansions to consciousness are avoidable, for they have side-effects on health and on personality life.
6. Successive expansion of consciousness gradually breaks open the self imposed limitations of belief and superstition.
7. Let the follower of the World Teacher eventually embrace the entire Globe and the life on it.

“The initial place of initiation is in the upper layers of human mind”
