

Dear Members of World Teacher Trust, Hearty fraternal greetings and good wishes. On the occasion of glorious celebrations of 111th Master May Call-

1. The 111th Master May Call, being a virtual May Call, there was huge participation and was truly global. Important group leaders from all over the globe could relate to each other and even share their views and experiences relating to Master Yoga. It was unique in many ways.
2. The global altar was set with Sanat Kumara at the backdrop and Master CVV in the front and with winged globe at the top end (symbol of WTT). It was an appropriate conception by the global members.
3. Master KPK related to the global groups on 28th and 29th as per schedule and gave emphatic directions and also subtle information of global transmission. He also gave prayers on 28th evening and 29th evening globally.
4. According to the global chief coordinator bother Ludger Phillips, the presence was very deep and very large compared to the earlier May call and there was simultaneous

participation in four languages and more members participated beating out the earlier participation. The 111th May Call is truly global.

5. Many members all over the globe cooperated to build a global view through Youtube and zoom. The global view is extremely rejoicing with members from east, west, north and south coming together on to a single platform – a vision hinted and intended by Master Djwal Khul in his teachings through Mme. Bailey.
6. It is appropriate that we zoom out globally to feel the solidarity. It is also appropriate that we zoom in through prayer to feel the oneness of humanity guided by the hierarchy.
7. It was an act of deep love and gratitude that the global trust dedicated the 111th Master May Call to Mother K Krishna Kumari, who continuous, according to Master to be with him and around him.
