

Dear Members of World Teacher Trust.

Hearty fraternal greetings and good wishes,

1. I reiterate to be emphatic that “The World Teacher Trust” is a means to relate to the Divine Hierarchy through demonstration of Goodwill in life. It enables recruitment into “The World Order of Goodwill”.
2. Members of WTT are advised to build a triangle of regular meditation, study of teachings coming from Hierarchy and engagement in a sustained service which eventually grows. When this triangle is well built a member is ‘noticed’ as an aspirant.
3. Aspirants only are picked up by the members of Hierarchy for further training through impressional teachings. In meditation, wait to receive Light, do not rush towards it.
4. Service has to be efficient and accurate. Service with half mind and half knowledge is dangerous (Astrology, Psychology, Homeopathy shall have to be thoroughly learned before practice).
5. Hard work with attentiveness and sincerity for twelve years is prelude to engage an assistant (willing to work with oneself).
6. Even when there are assistants cooperating, supervision is essential.
7. Pray for the departed souls from the Pandemic.
