"New Year 2011 Message"

- Master K.Parvathi Kumar

Hearty fraternal Greetings to the brotherhood

I pray to the Master that this year brings in happiness and peace to each one of you.

A lot is being talked about the unity and peace of humanity but very less effort is being put forth in that direction. Every human being thinks that he should be happy and all his friends and relatives should be happy but when it comes to action, very little is being done for the welfare of fellow beings. There are many spiritual and service organizations all over the globe talking of welfare and peace but not much action is being done in that direction. Everyone should put effort and contribute their part for the welfare of humanity.

In the present situation, we cannot say that this year would be highly prosperous for us as we can see that there is crisis around. The political Scenario in India is highly alarming. Even the most powerful and developed nations in the world are in a state of turmoil, economically and politically. Even though India is economically developing, its political issues stand as hindrances to Economical development. So this is our present state. This state may continue for the next 5 years. In such a state, just by thinking that everything should be fine is not enough. A strong effort should be put in that direction.

We cannot do anything individually to change the scenario. The only thing we can do is to pray. This is because no one will change their ideas and accept others ideas. Everyone believes his own truth. There is one truth which is the combination of all these truths. To know that truth we should dissolve all our ideas and pray to the Lord. We should pray for the welfare of humanity, our country and also pray that the political leaders of our country should transform into better ones or they may be replaced with better leaders. Just praying for our own welfare or our family's is no spirituality.

Also we should pray for the welfare of the ones serving the society and the country. In any organization or society or country, there are 20% such sincere workers. It is through them that the Lord works actively. Our prayer should add strength to such ones as we all benefit by the work of such ones.
