Ugadi New Year – April 4th 2011

Message for the year by Master K.Parvathi Kumar

Hearty New Year greetings to the brotherhood. The present year is named "Sri Khara". Let us pray to the Lord and the Masters that this year goes on smoothly without any troubles.

This year like the previous few years will not be so smooth and there will be turmoil in the world but those who are in the path of the Lord need not worry of it.

All that takes place in this year are changes that are brought out by time for the betterment of humanity and in that process everyone has to face their own share of good and bad situations.

Astrology is the science which gives us the movement of planets and what is in store for us in the coming period to some extent. It does not give the exact happenings but it gives us instructions and warnings to be taken up us and lead a life accordingly. That is why we have astrological prediction on the first day of every year.

The coming period may be either good or bad but staying in alignment with the Lord helps us to stay above good and bad. Even big problems pass by without affecting us much if we follow the path of the Master. That is the only solution for us in tough times. A mountain like problem becomes a small seed like problem when we are in the presence of a Master.

Also each one has his own karma which comes to him as good or bad in time. No one can tell the reason for the present situation of a person. It may be due to recent past or past life too. We do not know about our past. So a known person understands that what is done now gives us fruits in the future and acts accordingly. He does not worry of the present problems if any. He remains neutral for good as well as bad results and rest is left to the Lord.

So we all gathered here to know what should be done by us in this year. Everyone knows that the present time is not so good seeing the present circumstances.

There will be disturbances all over the world for the next 2 years both on the political and religious fronts. The strong nations in the world may face many hindrances. The developing nations in Asia like India and China will have very good development which the stronger nations in the world may not like but it bound to happen.

There may be many natural disasters taking place and even wars taking place in this year. The Pacific Ocean will show its might to the world this year. It is not just in one country but in many countries and may be in India too. Let them be, we cannot stop them. So the only thing that we can do is to pray to the Lord and stay in alignment with him.

Many illegal activities that took place in the past are coming out. Illegal and illicit activities have grown so much that earth cannot take it anymore and time has come to suppress them and bring about balance in the world. That is what is being done partly by Wikileaks. It is due to the effect of Saturn in Taurus. Saturn in Taurus imposes the law and those who do follow it are strongly punished. Pluto and Uranus are supporting it. So this will continue and righteousness will be established to some extent. In this process there may be loss of property and people.

There is one statement given in Bhagavata canto 1 "How strong may be a person! How wealthy may be a person! How learned may be a person! He may be troubled because time is above everyone in this creation. No one can overcome time. What should we do in such times?

The only thing one can do in such times is to pray to the Lord, just perform our responsibilities and act according to one's Buddhi. One should not sleep if the time is not supportive. One should attend to his duties even though he has many problems in life.

-Swasthi
