"Master CVV's Birthday Celebrations"

Discourse 2 by Master Kumar Garu on 04th of August 2011, at WTT Retreat Centre, Vizag.

Today we are celebrating the 144th birthday of Master CVV. Master CVV was born in the year 1868 at around 10 am in the morning during the ending hours of full moon with Sun in Leo and Moon in Aquarius in a place called Kumbhakonam. He was born with the will of the divine and he is an incarnation of the divine in complete.

Madam Blavatsky predicted his birth to her followers as instructed by her Masters. For the descend of the divine energy as predicted by Madam HPB, some of her followers train a person of high quality by name Krishnamurthy from childhood itself thinking that it would serve as a good body (vehicle) for the decent of divine. But when the will comes from the divine (Brahman), he has his own plans of descend which even many Seers may not know exactly. It was similar to the birth of Lord Krishna which was not known to many Seers.

Sage Agasthya (Master Jupiter) knew this will of the divine and made necessary preparations for descend of the divine. An able vehicle in the form of Master CVV took birth in Kumbhakonam as conceived by Master Jupiter to receive the divine energy which would reach the earth through the Halley's Comet. Master CVV knew that the energy would descend on March 3th, 1910 during the midnight hours. At that time he sat in Veera Asana and was oriented to receive the descending energy. It was like a huge lightning falling on the house. Such was the magnitude of energy that descended. The whole of locality feared a lot and ran towards Master CVV' house to see what happened. They saw from the window Master CVV like a body of light. They were all shocked and the next day asked Master what happened. Master CVV replied "This is the reason of my birth. From now on my life and work will be different."

Master CVV was very much attractive and even the king of the land used to come to visit him regularly. All the rich people in the town, scholars, artists, etc. used to visit him. When he used to sing, huge crowds used to gather to listen to him. He was a person of divine knowledge.

He took membership in the theosophical society and went to attend the society meet in Adyar, Chennai. When Madam HPB was speaking there, he went near her and seeing him, Madam Blavatsky went into a trance. She regained consciousness when he smiled and left.

Madam HPB was a lady of such stature that when she concentrates her vision on an item, even the strongest of persons cannot move it an inch. She was a being with having such powerful energies. She could move items from one room to another just with her eyes. There were many who saw that happen directly. She could perform many such acts which are beyond our logic and comprehension. So she was a high quality soul. If such a person goes into trance by seeing Master CVV, imagine what a kind of person Master CVV is! This was even before the divine energies descended into him.

So Master CVV received the energy and to understand the usefulness and purpose of that energy, he did many experiments for 60 days. He even does experiments with his wife Venkamma into whose body Madam HPB's etheric body descended as planned by Master CVV.

Even if you see Master Jupiter's life, he conceives a woman from his qualities and marries her. Master CVV also does a similar thing by making the etheric body of Madam HPB to descend into a body and marries her. He sends her to various planes as a part of his experiments. Many grand Masters used to come to his house from Himalayas to work with Master CVV in his experiments and to understand the working of that energy that descended.

Master CVV also had a child by name Chandu who used to take part in the experiments along with Master CVV even when he was just a few months old. They both used to speak in a language called Senzar which even Venkamma could not understand completely. It was a language which was in use even before Sanskrit came into existence. That language is the Mother of Sanskrit language. In this was he does experiments using his son, wife and disciples mediums.

He concludes from his experiments that the human body those days was not suitable for a faster uplift in the path of Yoga. The working of Saturn and Venus and their effect on the human beings was found to be not good enough. So Master CVV also made some agreements with the planets of Saturn and Venus and made some changes in the working of those planets to suit human evolution better. He even worked with the Manu to make changes in the Pituitary gland so as to form an alignment between the Pituitary and Pineal glands of the human body in way to speed up the process of evolution. Manu is the one who designs and give human bodies to the beings. He gave new Pituitary regulations which were given to us as Occult Meditations. After the 2nd world war took place, many changes took place in the glands in the bodies of the new born people. We can see the children of the latest generations are much intelligent and capable than the previous generations due to these changes in the glands. Their understanding capability is very high. If someone could command Manu, Saturn and Venus, can you imagine his greatness!

So Master CVV worked with this energy for 11 years 11 months and 11 days before he departed. In the Ashrams of hierarchy and other Masters this energy was worked out for 22 years from 1922 to 1944. Later it is being slowly distributed to the humanity.

So all this was done was Master CVV. All this is way beyond our comprehension and we need not know what exactly that energy does. First do the foremost instruction given to us which is prayer. He will take care of the rest and will make all the necessary adjustments in us. He will teach us everything that we require.

We are bound by a strong rope called our nature. We cannot untie that rope as it is very strong and we are not strong enough. So we need the help of someone and that one is called the Master. Master CVV promised us that he would untie that rope and uplift us. We should utilize this great opportunity given to us.

(Master is giving the example of Master Veturi Prabhakara Sastry who was greatly suffering from many diseases and was cured in just a day by Master CVV.)

It was also the same with the case of Master MN who had no peace in life until he met Master CVV. So such was the greatness of Master CVV. He could bring back to life his disciple who died. He showed it himself 18 times. This was done by none before. Once his work was complete, he departed in 1921. The miracles that he did were in line with the miracles done by Lord Krishna.

Even when his child Chandu departed at a very young age as his purpose of birth was served, Master CVV brings him back on the request of his wife. This happened 2 times and when departing the 3rd time, the child tells "My work in this life is complete and I won't return again even if you call me." But Mother Venkamma wanted Master CVV to bring the child back again. Master CVV tells her "this time I will send you. You talk to him and if he is willing to come bring him."

So Master CVV sends her to the higher planes and Mother Venkamma spoke to her child who was not willing to come. So she understands that she has no right over him and he would not come back again.

Master CVV even sent some of his disciples to higher planes and used to get back a report of all his karma that he done in all his previous lives. He used to call it "Test report". Has anyone done such a thing before? Based on that report, he used to give that person some instructions and Mantras to work with so as to clear that karma without much difficulty. Such were the supernatural acts of Master CVV.

Sri Aurobindo, though a high soul, turned out to be a patriot and started fighting for India's freedom. He was sent to jail by the British where Master Devapi meets him and tells him "You are on the wrong path. You should try to free the people from their personal bondages. This slavery to the British is no slavery. Self Freedom (Freedom from ones own nature) is more important than freedom from British. So to protect you and show you the correct path, I put you in jail." So Aurobindo realises the truth and changes his life style. He was then released from jail on good conduct. Sri Aurobindo meets Master CVV in Kumbhakonam on the instruction of

Master Devapi after coming out of jail before going to Pondicherry. The life of Master Aurobindo was completely different after that meeting.

So without change in our nature, we cannot move forward in the path of Yoga. We should submit ourselves to Master and tell him "do whatever you like with my body and my nature. I submit myself to you completely." He will take care of all the necessary transformations. It is like the transformation of a donkey into a horse and a crow into an eagle.

So all you have to do is to sit for prayer without fail in the morning and evening at 6. Also do the prayer consciously. Know the purpose of prayer. It is for the transformation of your nature. That is the preliminary step and later begins the formation of etheric body. Do not do prayer to show everyone around you that you are doing prayer.

So the first thing that happens is transformation in your nature. Then you get orientation towards your duties. We generally feel that our duty is what we want to do. What we want to do maybe different from what you need to do. So discrimination is necessary. Duties are less but desires are more. So stick to your duties. Then you have time for practice. Earn money only to the extent to you and your family needs. Do not earn for the sake of earning money. So know what your duty is. Duty reminds itself if you fail to attend to it. All the duties that we have are nothing but the debts that we have clear. We even have responsibility towards the animal and plant kingdoms because we derive lot of benefits from them and we in debt to them.

If you owe great debts to someone in your past life, he may take birth as your child and will feed on your wealth until that debt is cleared and then leaves you. This is one category. The other category of children takes care of you until your departure. So everything depends on your past karma.

As all this is not in our hands, we have to leave it to Master and he will take care. What we have to do? Wake up early in the morning and sit for prayer. Even in the evening sit for prayer at 6 wherever you are. Your life will be fulfilled completely in all aspects. Your nature will slowly transform into divine nature.

The first 2 steps in the 8-fold Yoga given by Master Patanjali (Yama and Niyama) will automatically be followed by you. It will not happen if you just read the book on Yoga. This is a great facility in the path of Master CVV. You need not take care of the changes. If you do prayer, he will take care of the changes in you.

The next important instruction after prayer is to see the divine in everything and everyone around you all the day. It is not so easy because our nature obstructs us from seeing the divine around. So the first important thing is transformation of our nature.

In this way, Master will guide you step by step in the path. He did not ask us to do something. He just told us "You sit for prayer and I will do everything."

We are like children lost in this world. Can the child reach the father? Or can the father reach the child? Which is easy? The father can easily reach the child. So we cannot reach the divine. The divine can reach to us. We cannot say "I will reach the divine." The divine will reach to us and uplift us to be him.

So Master CVV promised that he would do it for us. In the present time and scenario, this is the only possible thing. We cannot do anything. We just want everything. We are very weak. So the divine graced upon us in the form of Master CVV. This never ever happened before in this creation.

So such grand Master was introduced to us by Master EK. Master CVV is an airy element and permeates the air. Air is present but we cannot see it and though we know that it exists, we fail to recognize its presence. So such is the presence of Master CVV.

In the books of Master DK, the greatness of Master CVV is described as "Avatar of Synthesis" though his name is not directly mentioned in the books. In one of his books "Initiation: Human and Solar", the formation of triangles by the Masters at different parts of the globe to receive the energy from Master CVV was described. I also gave it in the book "Aquarian Master".

Master CVV even gave new principles of Astrology which is completely different from what were existing until then. If we read the book "spiritual Astrology" and contemplate upon it, we can understand some of those principles. He even gave new rules to the planets which resulted in a completely different Astrology.

The acts that he performed in those 11 years after receiving the energy were splendourous. When he used to walk, everyone used to feel that he was floating on earth. Master has great love for us. He will walk with us. He will tell you everything what is happening in this globe which is not known to others. We cannot just imagine the turn of events in our lives. All this happens just by doing prayer in the morning and evening with devotion and orientation.

He will show you the concurrent existence of higher planes even while remaining in the physical plane. He will introduce you to grand Masters working all over the globe. If you go to a temple, you will be able to see the divine temple which invisibly exists in the background of the temple you visit. A person who you need to meet for some work will come and meet you. Such will be the happening of events. So many such things happen. So we need to keep recollecting all this again and again so that our aspiration does not fade away.

You will be able to come out of your physical body and see something different. So we will be given the knowledge of departure. We should know how to come out of this body. Yoga is for that purpose. A ripened fruit falls off the tree when you touch the tree. One who has an etheric body is a ripened one. He can leave the physical body at will. He will again take birth at will.

There will be no loss of memory. You can keep working in the divine plan without any discontinuity. All the Grand Masters are working like that.

You need not do any rituals if you do prayer regularly. If you have time, you can participate in some rituals but they are not utterly necessary if you do prayer regularly. Do not leave prayer for doing some other ritual. Rituals are secondary depending on your time and interest.

So it has been 102 years since Master CVV gave this Yoga to the humanity. It has been 144 years since Master CVV took birth (12 times 12). So we recollect all this on this occasion of Master's birthday to re-establish ourselves in this path. We should develop a strong will to do the prayer regularly and do it knowingly. Spread this message among our brotherhood. Just feeling that you are in Master's path is no use when you do not have related knowledge of the path you are following.

So we spent the day in the presence of Master, recollecting him. Just keep this recollection go on in the days to come. He will surely give his presence if you keep recollecting him.

-Swasthi.
