"Master CVV's Birthday Celebrations"

Morning Discourse by Master Parvathi Kumar on 04th of August, 2013

WTT Retreat Centre, Vizag.

On this grand occasion of Master CVV Birthday, my hearty fraternal greetings to all of you who have gathered here for this celebration.

145 years ago, on this day, at 10:20 am Master CVV took birth on this planet with a divine purpose of uplifting the humanity in a modern way. It was a full moon day in the month of Leo. There is always an element of unknown aspect in the path of Master CVV. If you know it in completeness, you lose enthusiasm over it and at the same time if you don't know anything about it, even then you won't have any enthusiasm to know about it. So this Yoga always keeps you in between these states. This path is something which was never given before. That is why it is said to be Apoorva.

This path of Master CVV is very simple and at the same time it is very difficult to implement. It is simple because the instructions given by Master CVV are very simple but somehow people find it to be difficult to implement. This Yoga was given by Master 104 years ago.

The Lord observed that many were not able to tread the path of Yoga because of difficulty in following the path. So the divine energy has descended to help the humanity to speed up the process of evolution of humanity and that energy has descended into Master CVV and is being distributed to the planetary beings through him. That divine energy is what we refer to as Master. Master CVV is the first medium to that Master energy.

There are many aspects relating to that energy. It does multi-fold activities. This energy not only ensures yogic process but also does adjustments in the body in all possible ways. It is like preparing the land for growing crops. The fertility of the land should be enhanced. For the immortal man to emerge from the mortal man there needs to be certain adjustments made in the body which is done by Master. It is a highly scientific process. It is process of building up an etheric body which can be used to move out of the physical body.

We need to know that Yoga is something different from the regular devotional and traditional practices like Puja and other rituals that we perform. Those activities lead you to Yoga depending on your orientation. Devotion, Meditation or Sacrifice may lead you to Yoga. We can just lead a normal life by performing some rituals but Yoga is a higher aspect in life. The former is to lead a comfortable life in the objectivity but Yoga relates to the subjective aspect of life.

Master CVV said “The human design done by Manu is not so supportive to the activity of human evolution. So I have come to give instructions to Manu and make changes in the design of the human body to enable quicker evolution.” It is no ordinary act. We think a person to be out of mind if he says so.

Master CVV promised that he would make all the necessary transformations in the body and prepare the ground for building up the etheric body. The existing body should be rectified first. He takes us even further in the path of Yoga and helps realize the self and then realize the Brahman as well. So it is from mortality to immortality, immortality to self realization and self realization to realization of Brahman. This is the promise of Master CVV to all those who follow his path with all sincerity.

When we say 'Namaskarams Master', it means that we are saluting to the energy that has descended from the Lord. The energy has descended from Brahman (THAT). From Brahman, it come through Varuna to Sirius. It has descended onto earth from Sirius via Regulus star and then via Halley's Comet. It descended into Master CVV when Halley's Comet came close to earth in 1910.

Master CVV has come from the Ashram of Agasthya and the energy of Agasthya works through him. Before this energy descended, he lead a very splendid life for 42 years. Many kings,

scholars, musicians, etc. used to visit him. He was an elite member of the society and even served as the mayor of Kumbhakonam.

So Master CVV knew that this energy was descending and he was prepared to receive the energy at the mid night of that day. He was sitting in a Veerasana posture just like as we see in the picture of Master CVV.

Prior to that, Madam Blavatsky predicted the descent of this energy and said that a new age would begin, at the end of the 18th century. The word “New Age” became popular from then on and there were lot of expectations about this new age. So this was known to the members of the theosophical society and they decided to prepare a high soul for this purpose. He was Jiddu Krishnamurthy. But the divine had other plans and it chose Master CVV for this purpose and Master CVV knew that this would happen.

The theosophical society members did not know that the energy has already descended into Master CVV and has begun its work. They waited for a long period until 1925 and subsequently some got disappointed even lost faith in the prediction of Madam HPB. Even Jiddu Krishnamurthy, who was prepared as a medium, lost his faith and was disappointed. He disassociated himself from Theosophical Society and lead a life on his own giving teachings in his own way. Even at the time of descent of Lord Krishna, there were lot of expectations where the Lord would incarnate but the Lord did not descend as per everyone’s expectations.

So when the energy descended, it was a combination of huge lightning and thunder. When a lightning falls on a house, normally it would have been destroyed but nothing so happened. When the people around feared and came to the house they found Master CVV sitting in Veerasana posture filled with abundant light. The next day Master CVV told his friends and neighbors that last night the purpose of his life has begun from then on he would work towards fulfilling it..

Master CVV does experiments with that energy for 60 days and understood the working of that energy. He brought lot of information from the higher planes through this energy. He wrote notes regarding the experiments for his reference. He used his son Chandu for performing experiments with this energy. That boy was already born before this energy descended. He was only 3 months old then. He is also a very high soul, a Siddha who descended from a higher plane to help Master CVV in the process. During the night hours, Grand Masters from Himalayan Ashrams and other ashrams working with a purpose to help humanity evolve, around the globe used to visit his house and they used to hold discussions.

To all the experiments being performed by Master CVV, his wife Venkamma was a witness and she used to very surprised with all that was happening. In Smt.Venkamma, the etheric vehicle of Madam Blavatsky was present. That is why Master CVV purposefully married her and used the etheric vehicle in her for his experiments. Master CVV even makes a contact with Madam Blavatsky when she visited India. Seeing Master CVV, Madam HPB goes into a trace for about 4

minutes. It is a surprising incident because Madam herself is a high soul with a very powerful vision. No one could move an object when she concentrated her vision on it. She had many subtle experiences right from her childhood.

All these aspects, we do not hear in the story of any other Yogi. Master CVV is unique. He knew the purpose of his life right from his birth. I gave all these aspects in detail in the book "Aquarian Master". Interested ones can refer to it.

Master CVV found many uses of this energy. He gave a complete new science of astrology and how beings can turn the planets to be favourable towards them. He gained the cooperation of planets Saturn, Venus and Neptune and made some agreements with them. He dictated the book "Spiritual Astrology" to Master EK, giving the new principles of Astrology. We should at least know the basic principles of Astrology to be able to understand the scientific aspects of this Yoga.

He also understood the working of prana (life energy) and how to control it. He could control prana in causal, etheric and physical planes and prana cooperated with him at his will. He made all the arrangements required to work out the future plan, in 60 days, from 30th March to 29th May 1910. He then introduced this Yoga to the planet on 29th May, 1910. That day corresponds to the month of Gemini which is the 10th sign in the reverse zodiac. Number 10 represents fulfillment. Slowly more and more people got initiated into this Yoga and it has now permeated into many parts of the globe, though not completely.

So on this grand occasion we have all gathered here with renewed inspiration and let us all practice this Yoga with renewed aspiration. The most important aspect of Master CVV yoga is prayer. If you think that something else is more important than prayer, rest assured you are not in this path. Morning prayer is even more important than Evening prayer. Morning Prayer is like a litmus test to us because we have to wake up early and be ready by 6 am. Doing evening prayer is also important.

If you do prayer regularly, Master CVV will take care of you in all aspects. He told "You may be any kind of person, your nature may be of any type, just do prayer, I will take care of it." He took up such great responsibility. He will take care of both objectivity and subjectivity. So if you wish to be uplifted, you should do prayer daily without fail. Without prayer, no transformation will happen in this Yoga. Do it with all sincerity and dedication. Having faith in it is also important. In last Bhagavatam class, there came a statement "Knowledge will not lead you to fulfillment. Faith is also required." You should have a liking towards it. Do not do it without faith and liking towards the path. So this is a question that you have to ask yourself and answer yourself. Do you have the faith and liking? There is a similar question that Saint Tyagaraja puts to his mind, in one of the songs composed by him. He asks the mind "Do you like the riches or do you like to serve the feet of the Lord?" So you should be clear whether you will be in this Yoga or not. Do not do this with a wavering thought or with a casual approach.

You should submit yourself to the Master during the prayer. Submission should be with all sincerity. Submission should be in respect to thought, word and deed. You should do prayer with all enthusiasm. It should not become a routine. For every prayer, we should be enthusiastic to know what Master CVV will do with us that day.

When prayer happens regularly, Master introduces many other activities in your life and you will do them out of your own interest. That is how Master works.

Pythagorus used a similar technique. Initially, he announced that he would give some amount, say 100 rupees to whosoever listens to his class. Many came and listened and they were attracted. This went on for a few days. Then he announced that he would not be able to pay so much amount and reduced it to 10 rupees. Even then people continued attend his classes. Later he announced that he would collect 10 rupees per person per class. Interested listeners paid the amount and attended the class. Later the fee was increased to 100 rupees and even then some people attended. He got all the money back and also a group of ardent students as well.

Master CVV predicted lot of things and we see all that manifesting today. He predicted a lot about the electronic age. He told that the humans would fly on their own. We already see such concepts being implemented in Hollywood movies. He predicted that this Yoga would be practiced sincerely by many all over globe in 4 cycles of each 60 years (240 years). Due to time constraint, I am not giving all the predictions given by him, now.

The most important thing for us now is Prayer. Master CVV even gave us exceptions. If you cannot do prayer at 6, just recollect Master CVV at that time and later sit for prayer when time permits. So try to do prayer regularly. We can only try and it is for Master to permit us. But one should have that aspiration and enthusiasm.

Another instruction given by Master is to see the divine in all. We should practice to see the divine in everything and everyone around us. It should become a habit. It is very difficult but atleast try. It may be easy to see the divine in a stranger but it is difficult to see the divine in someone who is closely acquainted with you. It is because you have an opinion about the latter and it obstructs you from seeing the divine in him. When you see divine in the other person, you do not remain casual and behave irregularly with that person. Your nature remains alert and stable.

Master CVV is synonymous with stability. You can see his sitting posture which is so very stable. There was one great Scholar, a man with insight named Puttaparti Narayana Charya. I once visited him in Kadapa and invited to him to a School Opening Ceremony. He came and he saw the picture of Master CVV. He remained silent seeing the picture for about 5 minutes and then asked who the person in the picture was. I told him "He is our Master, Master CVV." He then told me "This person is no ordinary. He is radiating his energy brilliance from each and every inch of the body. No one can sit like him. He is unique. You must be blessed to have a Master like him." Later when he asked to addressed the gathering, he just told "There is nothing

that I have to tell you. The one is the picture is there to take care of each one of you and all your activities.”

When the 3 principles given by Master CVV become regular in your life, you will gain an insight into the Grand Wisdom of this creation including all the Scriptures.

The energy of Master CVV is something which we cannot comprehend at all. Master used to remain very alert when he spoke on Master CVV. He used to speak very less about Master CVV. Master EK told me "This earth to Master CVV is like what a sand pebble is to us." When I felt that Master EK was exaggerating, he again told me "I am not exaggerating, it is the truth. The descent of Master CVV is something which is equivalent to the descent of Krishna."

The 3rd instruction given by Master CVV is "Do not ask anything from anyone." Master CVV does not like his followers to seek from anyone. He will arrange everything for you. If you want anything, ask Master directly. How sad does a millionaire father feel when his sons asks money from someone outside instead of asking him? That is how Master CVV feels when we seek from others. Remain a giver and not a seeker. Master CVV does wonders and I am a live witness to his miracles. At times I am very much surprised as well.

Practice these 3 instructions of Master CVV without fail and he will take care of the rest. He will lift you up tremendously. Your life will become splendorous. Without following these 3 instructions, you cannot become a follower of Master CVV. We discuss these instructions every year only thrice, on this day and during May Call and during December Call. Rest of the year we need to follow these instructions with all sincerity and dedication. With each passing year, our dedication should enhance. If you follow him sincerely, he will watch your each and every move. We cannot imagine his care for us.

The miracles that he did during his stay in physical are amazing and astounding. We cannot comprehend them. Once a singer was to give a concert in Tanjavur and that person lost his voice that day. That day Master CVV attended that concert and he was sitting in the first row. This person announced that he cannot sing that day. Master CVV called that person and he touched that person's throat and asked that person to sing. That person sang for 3 hours without any discomfort. Even Master CVV was a singer and when he used to sing at the banks of river Cauvery, people and even animals used to gather in large numbers to listen him.

Master CVV performed many such deeds. Bringing a person back from death is like a child's play to him. He performed it innumerable number of times. He himself demonstrated that one can leave the body and come back.

This is a day of recollection for us. So if you follow these 3 instructions as much as possible, we need not worry of anything else. He will take care of everything. So be serious about this Yoga. Do not be casual. Try to increase your aspiration as much as possible. You will not be lost in the world if you are in this path. It is an invaluable thing and by luck you are into it. You should

question and introspect yourself if you are not following it. Have a strong resolve to stick to the path. You need not fear anything when you are with him.

In the evening we will discuss some more details about how to perform Master CVV prayer. Also we will have a show of the documentary film made by Bangalore brotherhood. Not the complete film but the initial part of the movie which gives a brief of life of Master CVV.

-Swasthi
