“Christmas Message” (Master Jesus's Birthday Celebrations)

22nd Dec, 2013

- Master K.Parvathi Kumar

Hearty fraternal greetings to all of you!

There are certain auspicious days in a year as per the solar calendar. As each of us is a soul, which is represented by the Sun, we should lead our lives in relation to the movement of the sun and as per the Solar calendar. Each one of us is a Sun, as a soul, says the Veda. And hence aspirants are advised to live in tune with the movement of the Sun.

So as per the solar calendar, tomorrow morning we will be entering into the month of Capricorn. Today is celebrated as the day of Winter Solstice. The red light that descends from the sun in the morning hours is referred to as the blood of the sun and when that light falls on the body, there is a very good chance that the impurities in the blood in us are eliminated and it is more so in the month of Capricorn. This purification enables us to travel in the path of ascent. This is so told by the Seers. The Sun is the saviour for the solar system and all the beings in it. And we have the statement "The saviour's blood clears the sins of the people and enables them to transcend into higher realms of life." And this night is celebrated as the birth of the saviour. That saviour is the

Sun that rises tomorrow morning. This ritual of “the birth of the savior” has been traditionally celebrated in all the ashrams of the planet for centuries together and even now.

Jesus Christ was also born on this night just before the entry of sun into Capricorn. He had special abilities and purified soul and in way is a saviour to the humanity and is called the saviour. He is also a saviour but the ancient wisdom refers to the Sun as the saviour. We should not forget the ancient truth though we can still accommodate the new truth. Madam HPB gave this truth in her book "Isis Unveiled" and the same truth is even present in the Ancient Vedic Scriptures.

So we should be prepared to receive the red rays of the sun that descend upon earth tomorrow morning which would purify us and uplift us.

This night is the longest night of the year. The sun touches the point of tropic of Capricorn in the celestial sphere and starting tomorrow he travels towards the equator and then to the tropic of cancer and that day is celebrated as

the Summer Solstice. This is all the apparent movement of the sun relative to earth, in the celestial sphere. We have also the 2 equinoxes coming in between. For the people on earth, it appears that the Sun is travelling north for 6 months and south for 6 months. If you closely observe the shadows formed by the sun, you understand this movement of the sun.

From tomorrow the night decreases and the day increases. We can observe the sun ascending from below and then descending from above on a daily basis. This can be related to the ascent and descent of the being (the soul principle) within the body. As the sun ascends (travels north) during the period of next 6 months, this period is considered highly conducive for practices related to soul realization. This period can be used to practice in relation with the sun and enter higher planes of existence. There are 7 states of existence and depending on the state of evolution of the being, one exists in that plane. Though all appear to be human beings, all do not exist in one plane. There are different beings existing in different planes. There are many Sages, Siddhas and Masters who can travel in all the 7 planes, at will. There are also intelligences that move in different planes.

So starting from tomorrow, it is a festival for 6 months continuously for the aspirants of light. And this is a very auspicious day of beginning of such a festival and on this day, Grand Master Jesus was born. The complete life of Jesus is not known to many and his story given in the history is not accurate and complete. There was no proper record of his story and as a result historians changed it to suit the religious propagation and agendas. There is a prediction that the complete story of life of Jesus would come into light in future. By the grace of Masters of Hierarchy, we know the true story to a good extent and we will discuss it now. Jesus, a highly purified soul and a true representative of the Hierarchy, has given his teachings relentlessly for a period of 3 years and worked for the upliftment of humanity and continues to do so.

On 22nd December night, Jesus was born in a town called Bethlehem. At that time, the Jewish king, Herod, ordered that all the people in the kingdom should go to Jerusalem and record their names as a part of population census. Joseph and Maria (Mary) went to Jerusalem for that purpose and on the return journey, Maria gets labour pains and she gives birth to Jesus in the town of Bethlehem. There was expectation among the Jews that a messenger of God would come to uplift them. But they knew nothing of his birth. Grand Masters Maitreya, Maruvu and Devapi knew the birth of this Son of God and hence they start from Himalayas and reach Bethlehem to bless this child. Joseph and Maria already knew these 3 Grand Masters as they were already evolved souls and were born in that country, knowingly, as per the divine plan.

Joseph comes from a pure royal family and if you read the family story of Joseph you know that there were many evolved souls among his ancestors. Great Kings like King Solomon and King David were among his ancestry. Also if you read the book Music of the Soul, you understand that persons referred to as Lokayata and Prateechi were born 3000 years later as Joseph and Maria.

Before the birth of Jesus, an angel appeared in the dream to Maria and told her that a son of God would be born to her and also that the son born to her elder sister, Elizabeth, would assist her son in fulfilling the divine plan. Elizabeth was already 80 years in age at that time and her husband was priest in a Jewish temple. Jews have the tradition of worshipping formless God. Madam HPB tells us the history of birth of Jewish by Abraham and you refer to it in her book.

Abraham was originally a Brahmin in India and he was not comfortable with the practice of worshipping the divine in many forms and also formless God principle. He suggested that all the forms being worshipped should be scrapped and only the form-less divine (Brahman) should be worshipped. This idea was not appreciated by

other Brahmins as it was against the tradition and as a result this person was abandoned from their group. As a result, this person goes to another Lord and starts the Jewish religion with form-less god. Though it is true, the forms are given for the ease of beings to begin with and the same is told by Lord Krishna. You start with a form and then gradually move to the worship of form-less God. It is almost impossible to directly align and worship a formless Divine principle.

So coming back to the story, another angel tells the same to Elizabeth. The names of the 2 angels are Gabriel and Rafael. When that lady tells about her dream to her husband, he does not believe her words and opposes her.

That night, the angel, again, appears in his dream and tells him "You have been worshipping the Lord for years together but you do not have complete belief in divine and you even rejected the divine word due to your ignorance. As a result, you will not be able to see your son when he is born. You will become blind when he is born." He feels very sad of his ignorance.

This message of that angel is also significant to us. We may be worshipping the Lord daily but do we have complete truth in the divine? It is very important and we should remember that anything can happen if the divine wills.

So a male child was born to Elizabeth and his name is Yohan (which is now called John). Even the original name of Jesus is Yesu. There is both sound and numerical significance in those names. Many of the names undergo changes due to ignorance of the humans and as a result we have many distorted names in vogue now. Even in India the originally conceived symbolic names were lost and now distorted names are prevalent. People change everything for their convenience and forget the original.

So Yohan was born to Elizabeth and Jesus to Maria. Joseph is none other than the 7th ray master who is called Master St. Germain. He was giving his teachings to many aspirants already, on a hill (Jordan hills), secretly and these 2 boys also learn under his tutelage for 12 years. After 12 years, Joseph brings Jesus to Jerusalem. Jerusalem is the place of peace and it is placed in between 7 hills and it has a very sacred temple. It is equivalent to Kashi temple in India. It was as the plan that Joseph brings Jesus to that place. The plan is to hand over him to another Grand Master who would be there.

Before that, Jesus visits that temple but felt very disheartened seeing the status of that temple. He expected it in grandeur but it was not so. The religious heads behaved in most unlawful manner. Jesus was disturbed and gets into an argument with the head priest. He starts questioning them and all the priests were surprised by his words, as he spoke the ancient truths. But before any further argument, Joseph takes Jesus away from that place. Then they go to a fair where businessmen from many places all over the world gather for exchange of goods. A business man, whose reality is a Grand Master, comes there from India. There were business, Cultural and Spiritual relations between India and Israel and even other Asian countries from that time.

So Jesus was handed over to this Grand Master who brings Jesus to India. For about 18 years, Jesus moved away from his native land but the historians and religious heads who wrote the life of Jesus do not speak about these 18 years. They say that Jesus remained invisible during this period. Though some knew that he came to India, they did not reveal it due to their reservations.

Jesus studied in 4 of the most ancient Universities in India including Takshashila, Pataliputra (now called Patna), Varanasi and Ujjain. Takshashila is one of the greatest universities of all time. Ujjain is the place when Lord Krishna had his education and it is one of the highest regarded places for Astrology. He learnt all the ancient

Wisdom and Sciences in just 6 years from all these universities. In such a short period, he could learn all the subjects in 4 universities and it shows his abilities to learn.

Then Jesus goes to visit Puri jagannath temple in Puri. This Puri temple was established by Adi Shankaracharya.

He find that temple in a similar state as that of Jerusalem temple. He again gets into heated debate with the temple priests and the debates go on for 18 days and day by day the priest were losing the battle and the people started praising Jesus. The priests could not take anymore and plan to murder Jesus before he does any more damage to their reputation. That night, Jesus was carried away to Nepal from Puri by the same Grand Master who brought him to India, before any mishap happened at Puri. Jesus finds himself in Nepal when he wakes up the next morning. There Jesus and the Grand Master, who brought him, converse for a long period and share some experiences from their previous lives. Then Jesus was taken to a school belonging to the 7th ray Master. And there he learns many more sciences relating to 7th ray wisdom, including Magic and Ceremonial order. To Jesus, the principal of that school looked very much like his father. There Jesus was even revealed some secrets relating to his previous births and previous acquaintances. Then Master DK takes Jesus to some more Ashrams and he undergoes teachings there. Finally Jesus was even allowed to participate in the Grand Festival in the Vaisakha Valley on the full moon day of month of Vaisakha (Taurus). He then meets the 3 Grand Masters, Maitreya, Maruvu and Devapi and receives some teachings from them as well. This entire story goes on for 18 years and Jesus has many Grand experiences during these years.

Master Maitreya tells Jesus to go back to his native land and give the wisdom that he has learnt in the form of simple teachings and help the beings in their upliftment. He also tells Jesus "I would descend into you subtly and help you in your work, when time comes." From the time that descent happened, Jesus became Jesus Christ. That subtle body was handed over to Maitreya by Lord Krishna. You can refer to the book "Man Sacrifice" for more details. Jesus used to refer to that subtle existence of Lord Maitreya within him as "My glorious white robe. It is doing all this grand work manifesting through me." The same subtle body helped Buddha and Adi Sankaracharya in performing grand work. This secret was revealed by Madam HPB in her wisdom teachings. (Refer to Miscellaneous articles in 3rd volume of Secret Doctrine for more details.) While leaving the Himalayas, Jesus feels very sad especially because of his very close association with Master DK. Master DK promises that he would come and visit Jesus whenever time permits and would always stand behind him and aid him in his work.

So Jesus travels from Himalayas back to Israel. He reaches the river Jordan where his brother, Yohan, gathered some people and gave them some teachings. He propagated that a Son of God would come to rule them and does a lot of propagation against the King and religious heads. The King brought the wife of his brother and made her his queen. Due to this propagation, the queen felt very sad and wanted him to be beheaded. So Yohan was beheaded. It is a separate story which I cannot discuss now due to time constraint.

Yohan used to sprinkle water from the river Jordan and told the people "I am Baptising you with water. The Son of God would come and Baptise you with fire." Baptising is a process of purification. Purification by fire is the highest purification. Jesus comes and meets Yohan and they converse along with Maria. Then they 3 go and meet Joseph who presents himself to them as Master St.Germain. After that, Yohan was beheaded and saddened by his death; Jesus goes into meditation on the top of a hill, for 40 days. He does not even eat or drink for those 40 days. He remains in complete divine alignment and conceives the plan to be worked out by him.

When he comes out of meditation, he meets an embodiment of Kali (Kali Purusha), who is referred to as Satan and tells Jesus "I will give you huge wealth and even make you the emperor of this earth. Why do you waste your time in trying to transform these people which will definitely fail?" Jesus tells "I am the son of the one who is the Emperor of this creation. This earth is negligible compared to that. This is nothing to me. My father would give me anything if I ask. You cannot lure me with your worldly offers. I have no interest on earth except the upliftment of the beings here." Satan further says "I offer you all the beautiful women of earth." Jesus gets angry and orders Satan to leave immediately and Satan leaves.

Then Jesus comes down from the hill and started giving his teachings. He teaches many subjects but many of the teachings were not recorded and what was recorded was not recorded in a proper manner. Most of this followers did not understand his teachings completely and each of his 4 closest disciples wrote a book each which are referred to as the 4 gospels but none of them are true representations of the teachings of Jesus.

Once, when Jesus was walking towards the town, he comes across a group of fishermen who looked worried because they could not catch many fish that day. He tells them "Do not be worried, go to fishing again and you will get lot of fish now." Just as Jesus said, it so happened. They were very happy and recognized him to be a grand being. From then on he started giving teachings to them in mini capsule life forms which are called Parables.

Jesus performed many grand acts including back a boy from death. The name of that boy is Lazarus who is also a distant relative of Jesus. Everyone was surprised at that acts of Jesus and everyone started propagating this act of Jesus. Jesus does not even wait for a while after this incident. He simply walks away. He is not interested in praise or propagation. Jesus used to give a teaching and never looked for the praise that followed it. He used to spend most of the time near Jordan River.

He even started giving teachings in some small temples that were present in nearby places, on the request of some aspirants. Moses gave the people of that land basic discipline and 1000 years after that, Jesus comes and further gives teachings on that basis.

With all these acts, the name of Jesus went long and far and many people started gathering around Jesus as followers. But only 3 ladies were truly his followers and all others gathered around Jesus for their selfish means. Peter, Paul, Judas, etc. were such. Only the 3 ladies, Martha and 2 Marias truly followed his teachings.

At that time, one of the religious priests felt that Jesus is the Messenger of God that everyone was expecting to be born. The name of that priest was Nicodemus. He calls one of the followers of Jesus and tells "Ask your Jesus to come to the Jerusalem temple and gives his teachings to the people of the country from this stage."

So when Jesus goes to the temple, firstly, a blind man comes to him and ardently requests him to grant him vision. Jesus, after realization that the blind man is really making this request out of complete trust in divine, prays to the Lord and touches his eyes and immediately that blind man gets vision. That man loudly proclaims "You are the Lord" and hails him. Jesus then says "I am not the Lord. My father in heaven did this act and bestowed fame upon me and glorified me. I am just a medium to the Lord." Then people ask "So are you the Son of God?" Jesus says "I am a Son of God and you all can also become Sons of God." The priests could not accept it because they felt there should be only One Son of God.

Jesus even cures a mad man of his madness by touching his forehead. He does many similar acts. The priests ask Jesus "You do not follow the tradition like all of us. Do you?" Jesus says "The traditions were introduced by

humans." There were traditions that no teachings and healing is to be done on Saturdays. It is their belief that God sleeps on that day of the week. Jesus argues with them and the priests could not win over Jesus.

The priests wanted to mould Jesus and project him as their representative. But he did not listen to them and did as he wanted and large groups of people used to gather around him. That is always so with any Master. A Master does works as per the divine plan and not as the liking of the people. The priests get into a feeling that Jesus would turn out to be problematic to them.

Once a huge gathering came to hear the teachings of Jesus and he discourses for a very long time. Everyone was hungry and there were only 5 rotis (dish made out of wheat) and 2 fish. Jesus touches them once and tells one of his followers to distribute them. The disciple questions how can he distribute 5 rotis and 2 fish to such a huge gathering. Jesus tells him to just distribute without questioning and the 5 rotis and fish never exhausted even after distributing to all. Jesus then says "In the kingdom of my father, everything is available in abundant and there will be no deficiency of anything."

He performs many such grand acts. He even saves Magia Magdalena from an allegation and later she becomes his ardent disciple. You can read her story in detail which is available in book form.

I will tell 2 more stories and conclude.

Once while Jesus was walking, a lady was running towards him and people after her calling her a thief. Jesus holds her and tells her not to fear. The people behind her tell Jesus "She is stealing food from our home." The lady tells "This is the food that was thrown away by them and I collected it to feed my children who are very hungry." Then Jesus tells the members of the house "You made her thief due to your actions. You could have given her the food instead of throwing it away. It is your responsibility to feed her as she is serving you. Is it wrong if she collects that food to feed her children?" He then gives many other teachings at that point of time and even tells about reincarnation at that time. He even tells that a wealthy man, who does not utilize his wealth for the welfare of others, will be born very poor in his next life. The lady of that house realizes her mistake kneels at the feet of Jesus.

Meanwhile, a group of priests started a revolution against Jesus as were not comfortable by his actions and teachings. Their teachings and actions lost significance in the eyes of the people. One of the followers of Jesus asks Jesus to bring freedom to the nation. Jesus tells "I did not come to bring freedom to the nation. I have come here to grant you freedom from your personality and nature. And the Roman Emperor is ruling very well. There is no necessity for political freedom. There is necessity for freeing the being from the personality/nature." Even when India was being ruled by British, there were many Grand Masters who were living in physical at that time but they did not participate in the freedom struggle. They knew the past karma of the nation and knew the plan; hence they did not try to make any attempt to free India politically.

So this rebellious group started alleging against Jesus to the Roman King (representative to the Emperor) but king did not believe their words completely because he had a different version coming from his wife. He also hears about Jesus from one of his soldiers who said that Jesus saved his son from a dreadful disease by curing him remotely. So the Roman emperor was in 2 minds because he was hearing 2 different versions. But he concedes to the pressure from religious heads and orders his capture just to ensure law and order in the land, which was his duty. It was not easy to catch Jesus because no one knew where he lived and he used to move from time to time.

He never stayed at one place. There is a saying “a son of man has many mansions of his father to rest but he has no shelter to lay his head.”

Finally before he was caught, he hosts a feast to his close followers, called the Last Supper, and gives them final instructions. He distributes a loaf of bread to all of them. He even tells that the soldiers would catch him shortly. When they question how he can be caught, Jesus tells "One of you would purposely hand me over to them. But this is happening as per the divine will. So I let it happen." Even one of them says that he would not allow the soldiers to take Jesus. The Jesus tells “When the soldiers come, you would be sleeping then.” Most of the times when Jesus gave a grand teaching, most of his close followers were sleeping.

So the soldiers take Jesus and put him in jail. Next day, there was the hearing in court and the priests try to allege him of many unlawful acts but the group of people, who gathered there, do not accept. Jesus does not speak anything and the King does not find any allegation to be true and postpones the verdict. The priests try to bring pressure on the King by saying that if Jesus is not killed, there would be many agitations in the country and there would be no peace. The turmoil would be created the religious heads themselves and they would say they happened due to Jesus. They even proposed that a bandit by name Baron Bose, who was to be put to crucifixion, to be released and that punishment be given to Jesus, on the day of Passover. The King finally concedes and gives the judgment that Jesus be killed by putting him to Crucifixion.

Jesus was tortured a lot with a thorny crown and with other methods, before he was made to carry the cross. On the way, a lady wiped the face of Jesus with a cloth and the face of Jesus got imprinted on the cloth and that cloth is the basis for all the images of Jesus we have now. That cloth is present in Syria now and it is called the Shroud. There is lot of symbolism associated the story of Jesus carrying the Cross. He stopped at 14 places and they are referred to as the 14 stations of Crucifixion. Then Jesus was put to the cross.

During Crucifixion, Jesus felt the pain at a time and he recollects the divine and requests the Lord not to leave him. As long as he is in alignment with divine, he does not feel pain. When he feels pain, he recollects the Lord and re-aligns.

The 3 lady followers even come and meet Jesus at that time, before his departure. There was an order that no one should come to meet Jesus but these 3 ladies come and they were allowed by the same soldier who was earlier benefitted by the healing of Jesus, to meet Jesus. Maria, the mother of Jesus, comforts her son and gives him strength. I gave these details in the book “Passover”, you can refer to it.

All other male followers remain in hiding due to fear. The next morning, Jesus was folded in a catacomb and put it in a cave as per the Jewish tradition. The priests even put a huge rock at the entrance of that cave because Jesus earlier proclaimed that he would resurrect. They feared that Jesus would come back and put a stone to stop him. After 3 days (as per lunar calendar), the 3 lady followers go to the cave and find it empty. They fear that the body of Jesus has been taken away by the priests. They call his name loud (Rabi! Rabi!) in anguish. Jesus appears before them in the same body, floating in air and says "I have come back as I promised. I have no death. Tell others that I would come and meet them."

The ladies go back to the other followers who were hiding and tell them of their experience. They did not heed the words of these 3 ladies and ignore them. This is the problem generally men face because of their logical mind. They cannot accept and believe things as easily as the ladies.

Suddenly Jesus comes through the wall and appears before them. All the other followers, except these 3 ladies, were shocked. Jesus tells "I am here before you in the same body as before. Do not fear." He even touches some of them to make them believe that he has truly returned. He tells them that he would stand behind anyone who followed and propagated his teachings. Jesus continues to grant his presence to all his ardent followers even now. He continues to work for the welfare of humanity and he is now working in Israel. Even now, there are many true ardent followers of Master Jesus all over the globe and they continue to work for the welfare of the humanity, following in his footsteps.

Jesus went with that body to Kashmir and lived in caves there, with that body, upto 81 years of age before departing and his grave can be found at a place called Pehlegaun (meaning first town). It is the same place when the grave of Master Moses is also present.

We are all lucky that Master EK has handed over this wisdom relating to the life of Jesus. Master EK's path is very close to that of Jesus and Master EK shares a very close association with Master Jesus. The path of Jesus is the path of Bhagavata. A Bishop in Guntur and Master EK used to share a very close relation and Master EK used to write songs on Jesus shared them with that Bishop.

Let us all worship him and recollect him from time to time to remain in his presence. All important days in the life of Jesus are significant to us, to relate to him, including his birthday, day of Passover, Pentecost, etc. Let us continue to do so.

-Swasthi.
