"57th Inter-continental tour briefing"

By Master Parvathi Kumar on 05th of July 2014, at Retreat Centre, Vizag.

Hearty Fraternal greetings to the brotherhood.

On 3rd June, after the farewell given to me by the brotherhood, I started on my 57th Inter-Continental Tour to the West. Frankly this tour has been a very strenuous one with lot of travelling involved. Even then it happened splendorously with the grace of the Master. This time, my son, Guru Prasad, also joined me on the insistence of Western Brotherhood, along with my wife Kumari. We all travelled to Hyderabad where Brother Ramana joined us. Four of us travelled to Mumbai and then took a flight to Zurich, Switzerland.

First we had an Executive Board Meeting of WTT-Global at that place. A souvenir is released every year with all the activities of WTT in the west along with some photos and brief description of the teachings given by me. It was distributed to the members in the Executive Board Meeting.

Sister Sabine recently completed a Master degree in Ayurveda after her years of study of the subject and she submitted a thesis which has won wide recognition in some European countries. It has been printed and a copy has been given to me. She did research in the area of Rasa Sastra in relation to Ayurvedic Medicine and wrote a thesis in a very scientific manner. She was awarded Master of Philosophy in Ayurveda.

It is being planned to move to an electronic version of the magazine Paracelsus as more and more readers prefer e-copies as it is easy to store and retrieve than the hard copies. Even all the books coming through me are available in e-copies now in our WTT website. Most of the brotherhood in the West read those books in that manner. So this decision has been taken with regard to Paracelsus Magazine. Also, it is being requested that English books of Master EK are made available online and it will manifest shortly.

Then we went to Barcelona in Spain. It is a very important city in Spain and we have a centre of WTT at that place. It is the headquarters of WTT in Spain. We had a prayer and lecture at that place.

There is also a group by name Meenakshi nearby to this centre. They arranged a building for themselves and conduct activities like prayers, meditations, reading of Scriptures, growing plants & trees etc. in a regular manner. They are mostly a group of elderly retired people who are leading their lives performing these activities. It started about 2 years back.

Then we went to the city of Girona which is also a very old city build by Romans. To all these places, we travelled by road. We went around that city in the morning and we had a group gathering of about 120 members in the evening. I gave a discourse on some of aspects of Creation. Later we moved again to the WTT headquarters.

In Spain, we stayed in the house of a Brother by name Jordi who happened to be a retired bank officer. All 4 of us along with 2 Sisters (Sabine & Anna) from Switzerland stayed there for 14 days. Jordi's daughter was having her exams at that period and she was not at all disturbed by our presence. She even insisted that we stayed at their place when others suggested other places owing to her exams. She successfully wrote her exams and even passed them by the time we returned to India. It shows the family's belief in the Master and inspiration in the path. It is great example for us to follow.

Brother Jordi is also a highly intellectual person and is highly devoted to service. He sleeps only 4 hours a day. He is very active in WTT. We used to have prayers regularly and people used to come from long distances and participated in those prayers. I gave some discourses in that Centre as well.

Then we went to the city of Madrid in which there is river flowing by name Tejo initially and now it is called Tajo. It is also a very old city which is in the middle of Spain. The kingdom of Spain developed with this city as the centre. They expanded their kingdom into the South American continent and even Mexico. The American continent was, in fact, first discovered by Spaniards. Even now, most of the people in South American continent have Spanish as their primary language.

Nearby this city, there is an island town called Toledo which is spiritually very significant, which we visited. Long back, I gave the significance of that place to our group there and from then on, they have been conducting regular prayers at that place. Last time, I could not go to that place but this time, the group coordinator, Brother Ignacio, insisted that I should visit the group and so we went to Toledo by travelling in a train which almost travels at a speed of 400 km ph. The name of their group is "Brotherhood of the Eagle". We reached in the afternoon and we had a gathering in the evening. We stayed there that night in a nearby hotel. The group living continued on the next day as well. The group there is very inspired by the concept of the Eagle.

Then we went to the place called Valencia. A lady, Sister Sabine de la Paz, who was inspired by the teachings of WTT started coordinating some groups at that place and there are almost 5 active groups that she is running now. She keeps moving around to the groups. So many members from all those groups gathered at a place and we had a Question & Answer session.

Then we went to the house of a family who has been associated with the WTT for a long time. The man and lady work in the postal department and they have 3 children. Their house is very huge and with lot of garden space. For every equinox & solstice, there will be a huge gathering of WTT members at their place. There is a small Krishna idol installed in their house where they conduct fire rituals on a weekly basis. I conducted a fire ritual there.

In this tour, I could visit about 12 groups in Spain. Next we had a group living on a weekend and I spoke on the topic of the principle of Duality in creation. A fire ritual was also conducted in that group living.

Then I visited the centre belonging to the Theosophical Society where a group had gathered and I spoke about the term "Vasantha" and the work of Madam HPB and Annie Besant and also some of the teachings of Master DK.

A group of young members, who have been associated with the WTT from a very young age, have come together as a group and they have been conducting regular study of Scriptures and other activities. I visited their group and it was my last gathering in Spain.

Then we went to Germany for a seminar marking the Summer Solstice. There is an area called Münsterland where we gathered for the Group Living. About 180 members gathered.

(Master briefly gave the contents of the discourses given during the Seminar).

I gave the significance of Summer Solstice and the month of Cancer and the importance of Jupiter in Cancer and also the practice to be taken up by an aspirant during this month was given in detail. I also gave the significance of the Marriage Ritual during the seminar. Many astrological aspects were spoken about. Also a marriage was conducted in this Group Living. That groom, Jannes, is very well known to our group and he visited Visakhapatnam as well. He has now become a pilot and decided to marry during this group living. All the members who gathered there felt very happy on witnessing the marriage ritual. Members from almost 16 countries gathered for that seminar.

It was also the completion of 30 years of WTT Germany and that event was also celebrated. All the details of the events that happened in these 30 years were consolidated and printed out as a book. It has many details.

Also the book "Kapila & Kardama" was translated to German and released during this Group Living. The book "Marriage Sacrament" was printed again in German (2nd print) and released. Also the book "Om Namo Narayanaya" was translated to German and released. There is a group which conducts the chanting of this mantra every Wednesday 108 times. I spoke about this mantra in a seminar long back and later it came out as a book this year. The book "Lessons on Secret Doctrine" was translated to German and released. The books "Initiation" and "Overseas Messages" coming from the discourses of Master EK were reprinted in German and released.

An arrangement was made with a publishing & distribution company for the publishing and distribution of books that came from Master EK and me. It is a very prominent publishing & distribution company in Germany. An introductory catalogue was prepared by them giving the details of all the books. It will be used to distribution purpose in Germany.

Also in this seminar in Germany, I was asked to speak about Master St. Germain. In 2 lectures, I spoke about Master St. Germain beginning with his past in India. He comes from the family of Viswamitra. He even took birth as Munda Kaushika at the time of Krishna and he learnt many

aspects of magic and tantra from his guru, Chanda Kaushika and then was lifted up to the status of a grand Master by the touch of Krishna at the same time of initiation of Master DK. I spoke about many other incarnations of Master St. Germain as Joseph, Plato, Francis Bacon. He always appears as a person of 49 years of age. He performed many supernatural acts. He is also an alchemist who can write with both hands. There are also many Ashrams of this Master in North and South America. His disciples were responsible for bringing freedom to many countries in those continents. That is why he is well known in these countries. So the story of such a Grand Master was spoken.

After that seminar, we went to Paris via Brussels by road. We had a gathering with the members of the group near Brussels. That WTT Centre near Brussels was one of the very first centres in the West started at the time of Master EK. A new era healing centre is also being run at this centre.

Later we went to Paris where a seminar on Astrology was conducted and it was a gathering of many astrologers from France. It was held on 2 evenings. It was organized by our member named Toth, who is also an astrologer. All of them were very much impressed by the lectures that I gave on Spiritual Astrology. I gave the significance of almost all the planets and also the great impact of Uranus in present days.

The city of Paris was built by renowned masons under the influence of Master St. Germain. It is a masonic and mystical city. The Eiffel Tower is also a very important monument and has great significance spiritually, which I detailed to the group who came along. We also did a small prayer at the top of the tower. We visited many other monuments in Paris. We returned to Brussels and had a night's stay there.

Then we went to Hamburg by road which was a very long distance. A group of almost 60 members had gathered there and they wanted me answer their questions. It happened for 2 days and many good questions were asked.

Then we went to Switzerland. It was the last stop before returning to India. We had a small gathering there. After that seminar, we started our travel back to Mumbai and reached Vizag, today morning.

There are many other details but due to lack to time, I am only giving the details in brief. So in this manner, the 57th tour has been completed and I go on my 58th tour to America in September. With that, the tours to the West planned for this year will be complete.

Most of the members of all our groups in the West are those who were inspired by the teachings of either Master DK or Madam HPB and this proves to us that the WTT is a continuation of the spiritual Plan that was initiated by Madam HPB and continued by Madam Bailey. It is all due to the grace of the Masters working in the background and inspiring all of us.

-Swasthi
