“Master CVV's Birthday Celebrations”

Morning Discourse by Master Parvathi Kumar on 04th of August, 2018

Radhamadhavam, Vizag.

Hearty fraternal greetings to the brotherhood. August 4th is birthday of Master CVV. We wish that Master CVV descends into us once again, transforms us and works out his plan through us, on this day. This is the 151st birthday of Master CVV.

It has been 108 years since Master CVV has given out Master yoga to the humanity and ever since Master CVV has been working to help uplift the beings of this planet in the path of evolution. Let us all dedicate ourselves to Master yoga and depending on our aspiration and devotion, Master will definitely grace us.

One great aspect of Master yoga is there are no regulations in the path. Depending on one's practice, one starts receiving regulations which one feels like following on his own. As the instruction comes from within, one will be very comfortable to follow it.

We should ensure that the quality of the work that we do increases gradually. That shows our dedication and aspiration to transform ourselves. Then Master will take care of the rest. The more aspiration one has, the better the transformation happens. The more we surrender to the Master, the more he works through us. We should be very sincere and dedicated in following

the instructions that we receive from the Master. Then he will gradually take away all the unnecessary aspects of our personality and transform our personality, making us a much better person. He transforms us to the level that we become magnetic and more and more light starts emanating through us into the surroundings. Master CVV can transform any kind of a person as long as one invokes him and aspires to transform himself. Master CVV promised that he will make each one of us equal to himself. He promised that he would make us realise Brahman.

Master CVV is an advanced initiate from the Ashram of Master Jupiter. He consecrated himself to the work of quickening the evolution of beings on this planet. Generally, the problem is with the vehicle or appliance. Even though electricity is there, if the appliance is not properly working, then the electricity cannot do anything. So, there is the need for the appliance or vehicle to be repaired so that the Divine energy can flow without any limitations. In our case, the vehicle refers to the form and personality which Master CVV promised that he would repair.

Master CVV made the path so simple that anyone and everyone who has the aspiration can follow it. There are no rules for clothing, no rules for seating, etc. He left that to us completely. The main thing he asked us to do is to sit for prayer in the morning and evening and invoke him. Then transformation gradually happens in us. Transformation should happen in our actions, words and so on in every aspect of our life. The way we use our senses, mind should become much better. The way we behave towards our fellow beings should improve. A transformation in this direction is an indication that prayers are happening well. We should aspire for this transformation and move in that direction with the grace of the Master. The betterment is not for selfish reasons but to help the fellow beings.

Master CVV said “Invoke me and sit with closed eyes for 15 minutes”. He did not ask us to sit for more than 15 minutes. If you have the inspiration, then you can sit for more time. After invoking, we are asked to observe what is happening within. Witnessing is an important aspect in yoga. A yogi is one who remains a witness all his life. You should see your life as a film being projected on a silver screen. That is how a yogi can see. One who remains a witness will not be affected by the incidents that happen. One who remains a witness will know what best he can do in a given situation.

We should be sincere in our prayers that Master CVV should have confidence in us that we will be regular in our prayers and we are ready to transform ourselves. The entrance is difficult because the Master wants us to have intense aspiration and dedication. If you demonstrate intense aspiration and dedication towards prayer, then Master CVV will surely give an entry into the path.

Master EK clearly told us if one is not regular with prayers, then one cannot think that he is in the path. If you are not sincere in following such a simple instruction, you cannot become a Divine medium.

Master linked our kundalini with the kundalini of our planet, then with the kundalini of our solar system, then with the kundalini of central sun system and then even with the kundalini of cosmic system. This is no ordinary thing to do. In Spiritual Astrology, Master EK describes the major work of Master CVV in a paragraph under Capricorn. Master CVV is not only uplifting the beings of the planet but also the planet by itself. There have been lot of transformations in our planet during the last 100 years. The minerals, plants and animals have undergone huge transformation. Coming to humans, we are all given freewill by the Divine and hence transformation of the humanity is possible only when each being decides to transform himself. So, it is up to us whether we are prepared for transformation or not.

As transformation keeps happening, one starts expanding in consciousness. His awareness and knowledge grow until one realises that all is Brahman. One gains knowledge of all the secrets of this creation. Master CVV said “if you sit and invoke me, I will teach you everything from within.” He will grant you all the knowledge that you require, as you grow in the path. He will guide you all throughout the path. He only asked you to sit for prayer regularly. Without that, nothing will happen.

Just sit for prayer in the morning and evening at 6 PM. Then everything will gradually come to us. You will start receiving instructions from within. You yourself can see changes within you in just 5 years. You should ensure that you plan your schedule so that you have atleast 15 minutes in the morning and evening. He did not ask us to do or not do any other rituals. Everything is optional. You can do it if you want. You can chant Gayatri mantra if you like. You can do fire ritual or water ritual if you like. All those additives. Prayer is complete by itself. If you are not sincere with prayer, then you are wasting time in the path given by Master CVV.

There are no technicalities involved in prayer. You can sit as you like and do prayer. If you do not have strength to sit, then you can even pray by laying down completely. During prayer, you can observe lot of vibrations happening within you. Those vibrations gradual repair the tissues of your body as required. Your body and its health will not come in the way of your prayer and work, as promised by Master CVV. Master will also ensure that the body will not decay as long as you are sincere in your practice.

Master MN is a highly capable person but he had lot of problems in life and was not at peace. He came to know of Master CVV and went to meet him. Master CVV was at the door when Master MN came and he asked “What have you come for?” Master MN replied “I want peace”. Master CVV said “It is granted”. From that day onward, Master MN’s life became a play and it was full of splendour. He was at peace and comfort within at all times. Master MN was so

intense in his practice that he transformed himself very well in just 5 years and got the title “Little Master” from Master CVV himself. Such is the grace of Master CVV towards sincere aspirants.

Master VPS too had a similar experience. He used to suffer with many diseases and no medicine could give him relief. He could not even eat anything properly. He suffered for many years and finally decided to depart voluntarily. Finally, he went to Master CVV and he was made to eat first by Master CVV. Master CVV told him “Eat whatever you like and how much you can take. Your health is my responsibility”. He could eat well after a lot of years that day. Later he sat for prayer and the diseases that he was suffering from many years were eliminated. In that prayer itself, he could himself feel lot of changes happening within. One should read the biography of Master VPS to know how deep his transformation was.

In this manner, Master CVV takes care of all our mental and physical health issues. He can even grant us prana to extend our life. Master CVV said that he can restore even a dead person. He himself demonstrated that one can come back to the same form after leaving it.

Many grand Masters from Himalayas used to come, meet and discuss with Master CVV to know about the energy that has descended. After the descent of energy, Master CVV experimented with it for 60 days to know its nature before he started distributing it on 29th May, 1910.

The path taken by the energy to descend is a grand one. It descended through Varuna, Sirius, Regulus, Uranus, Halley Comet and onto earth in Kumbakonam when Master CVV received it. All these details are available in more details in the books which came through me. Even Lord Sanath Kumara, Vaiwasvatha Manu and Lord Maitreya came and visited Master CVV after he received the energy. We can never understand the expanse of that energy completely. We need not understand it completely. We just to invoke it on a daily basis and it will take care of us completely.

Master EK used to describe Master CVV as an Avatar of Brahman. We can even visualise Master CVV as a re-descent of Lord Krishna. The energy working through Master CVV is so grand that he can do anything. He links directly with anyone who invokes him. He doesn't require mediums or agents. To everyone, he is direct. His functioning is electrical.

Just like the descent of Lord Krishna was not known to many including to the creator Brahma, the descent of Master CVV was also not known to many. Many members of the theosophical society did not know about Master CVV. Due to their ignorance, they tried to even train a member to receive the energy which they were expecting to descend. But Master CVV already took birth by then and was waiting for the energy to descend. On the day of descend, he was prepared to receive it. He knew exactly when and how the energy was descending. The descent of energy appeared like the strike of a lightning. The people in the whole street woke up to the descent. They came running to see Master CVV shining forth. The next day they asked him

“What happened?” Master replied “The objective of my life is now being fulfilled.” They could not understand what he meant. Even now, very few in Kumbakonam know of Master CVV and his work.

So, by the grace of the Master, we have entered a grand path of Yoga. We might not know of the path completely but if we start following instructions sincerely, then extraordinary things start happening. All your limitations will be taken away and all the required knowledge comes to you. What is required from our side is aspiration, sincerity and dedication.

Master CVV promised that he would keep guiding us even across lives until we reach the highest of planes. He will keep granting us more and more knowledge as we progress in the path. He calls this path as “path of direct knowledge”. Whatever progress you made, you will know of it at some point of time.

Master CVV told that he will give us the required hint from within if there is any confusion. If you are in a situation where you do not know what to do, you just invoke Master and he will show you the right direction. There are many examples of people having received directions from within when they invoked the Master. Master CVV also said that one would become capable to do grand service. Master CVV can also make wonderful healing happen through the ones who are regular with prayers. His work is electrical and hence very fast. Changes may happen instantaneously and in most unexpected manner.

Master CVV said that he can give instructions from anyone around us. That is why we should be ever alert. Master may even speak through a mad man. That is why we should not neglect anyone just because they are smaller to us in stature or awareness.

Master CVV said to his followers “Your kundalini consciousness is my hands. I will uplift it provided you are sincere with prayers and perform all your duties sincerely.” So, our life moves into his hands. Things start happening involuntarily and it might even result in wonders.

Master CVV said that “as one progresses in the path, the body becomes lighter even though one grows in age. One might even feel like floating on the earth.” The body becomes so light that you can do lot of work without feeling tired.

Remember that with regard to health, Master CVV prayer is like a special medicine. It can heal anything and everything. Just have belief in the Master and he will take care of everything. Do not develop likes and dislikes. He will ensure that all the likes and dislikes are cut off. He will cut you off from likes and make you experience dislikes so that you do not have neither. Leave everything to the Master. You surrender to him and let him decide for you.

Master also said “The relation between you and me is pure and highly personal. Let not a 3rd person into our relation.” The world need not know of how we are relating with the Master.

Master CVV said “Make the heart your abode which is also my abode.” One needs to contemplate on this statement. An aspirant should practice to be inside when there is no work outside.

Master CVV said “If you start leading your life oriented towards the welfare of others, my will and knowledge will become yours and I will work through you completely.”

So, these are some of the instructions coming from Master CVV which we can try to put into practice. We will discuss some more instructions coming from the Master in the evening.

-Swasthi
