The World Teacher Trust has completed 49 years since its institution and has entered into the 50th year. My hearty fraternal greetings to everyone who are present here to attend this celebration. The WTT is a motherly organisation to all of us. Mother holds a very special place in the life of every being. No human being can ever claim in pride that he has done a lot of service to his mother because no amount of service can match what a mother undergoes to bring up a child. One should always remain grateful to one's mother. So we should be grateful that we are allowed to be part of this organisation which was started in remembrance of the World Teacher 'Lord Maitreya'.

We should all be celebrating this Golden Jubilee year of WTT in a grand manner. The celebration should be in terms of giving to the society because for a member of WTT giving is more important than receiving. Throughout this day, I received many mails and messages sending greetings on this occasion. The first message I received today was a wonderful image of Master CVV and then a triangle formed between Lord Maitreya, Master EK and myself which has been shared with the groups through whatsapp. It was sent by Shri Murthy garu and I was very happy to see that image.

We should remember that it is WTT that is running all of us and not the other way around. In these 50 years, many groups have come up and new groups have emerged from existing groups and so on, the WTT kept growing. As these groups are regular in conducting Master CVV prayers, Master keeps inspiring all the groups to take new activities of goodwill. The next generation of families associated with WTT have also started taking part in the activities and it is a good sign. Therefore, we are all part of a verily living organisation.

I received the following message during the morning prayer today **“Align with the Master in you. Deepen your knowledge and widen your service.”** So, this is what we all have to do this year and also in the future.

We have certain releases today. Before that, Brother Sattibabu has written a song on Mother Krishna Kumari which he will sing now before we continue with the program.

(Song and its meaning was presented by Sri Sattibabu)

Now going to the first bookmark being released today, which was given by Master EK. He gave it in September, 1978. It says **“I am always with you at every juncture. You will clearly feel my presence and receive my guidance.”** Another release is a bookmark coming through me which reads as follows **“The path is pervaded by Masters of Wisdom. It can be visualised within and worked out in objectivity. Let not personal likes and dislikes affect the work visualised. It leads to impersonality.”** The path here referred to is the spinal column within us where all the Masters of Wisdom are available. Even all the intelligences present in us can be seen by moving up along the spinal column. When you try to visualise them in your spinal column during meditation, you receive inspiration to do certain things. You should make note of them without linking them with your likes and dislikes. You cannot do something just because you like it and you cannot escape from your duty just because you do not like it. In WTT, balanced expansion both in subjectivity and objectivity is recommended. One should not be rejected for the other.

There are groups that follow teachings of Master St. Germain associated with WTT. Then there are groups that follow teachings of Master Jesus associated with WTT. Similarly, there are groups that follow Lord Maitreya, Master Maruvu, Master Devapi and Master DK. We can observe that WTT has become an organisation that synthesises groups following different Masters of Wisdoms. In the teachings coming through WTT, the teachings of many Masters of Wisdom are synthesised. I even got a mail from a group in Santa Fe about this synthesis in our teachings and how all the groups are finding an agreeability with WTT. This is what Lord Maitreya visualised and his vision is being materialised through WTT under his watch. In WTT, all Divine forms are accepted, teachings of all Masters of Wisdom are accepted, all paths are accepted and so on. What we believe in is that all forms, names, teachings and paths belong to ONE Divine principle and it is the ONE centre around which many directions have emerged.

Today, we also have the release of the book “Master CVV” written by Master EK. It is a reprint of the book. There are many seed teachings given in this book. The yoga of synthesis is given in very simple words in this book. It was first printed and released in 1972 during the first Gurupujas after WTT was instituted. So, this is the planned activity for today.

Now we will recollect certain things about WTT just to remain in the presence of the World Teacher on this day. The more we recollect something, the more we remain in its presence. It may be good or bad. If you recollect Rama continuously, then the qualities of Rama keep sprouting in you. If you recollect Lord Shiva, then the related qualities emerge in you. So that is how recollection of any aspect affects us.

In 1971, one evening I got a call from the house of Sri K.S. Dutt. When I went there, Master EK was present there along with a few others. Sri KS Dutt introduced me to all of them including Master EK. He did not know that I already knew Master EK before that meeting. Master EK smiled and said that he already knew me. This meeting happened in October 1971. Master EK knew me through my brother who studied under Master EK. I was attending fire rituals which were being performed by Master EK every week for almost a year by then. After one of those fire rituals, we had a conversation and Master EK told me “We will work together. You will know more in the future.” So in that meeting, Sri KS Dutt told me that a spiritual organisation is to be established and I was asked about all the procedures to be followed as per the government rules. I immediately agreed to do it. Master EK then asked “What should we do from our side?” I said “You please give me names of 7 members which is the minimum required for the formation of a trust and I will frame the rest. If you can give me a set of ideals and objectives for the organisation, I will also incorporate them.” Master EK said that he would write down

the ideals and objectives of the trust. Accordingly, I prepared the bylaws for the trust. I showed them to the sub-registrar who is to register the trust in the government records. I knew the sub-registrar and asked him if everything was in order. He said that everything is fine and consent of the 7 members is required through their signatures. So I got all those signatures and went to the registrar's office on 18th November, 1971 which was a Thursday and certificate was given to be that evening. I gave my signature as a witness for the registration of WTT. Since it was a small town then, everything moved very quickly and since the sub-registrar knew me, he took personal attention in getting it done quickly. I informed Sri KS Dutt that the registration is done and I was informed to attend a meeting the next day (Friday) called by Master EK. That day, all the 7 members and myself with some others were present and Master EK showed us 3 pictures. They were the pictures of Lord Maitreya, Master Maruvu and Master Devapi. He told us that these 3 form the core triangle for WTT and they run this trust invisibly. Externalisation of these pictures happened a lot since then and now these pictures are available with groups across the globe. Master EK told us about them, their work and so on that day.

After that, Master EK sent personal letters to 49 members to become part of the WTT if they wish to, among which I am also one. I still have that letter with me. Master EK told me, "myself or the other members are not properly aware of the official rules to be following in running this trust. So that responsibility is on you. He also told me to take care of all the financial accounts of the trust as well." From then, the activities of the trust kept growing with Gurupujas happening with more grandeur, year after year. Many more members started taking part in the activities and many of the present elder members of the trust joined the trust then as youngsters. They kept working with a lot of vigour under the guidance of Master EK.

In 1976, Master EK resigned his job as a lecturer in the university and started taking part in WTT activities full time. He kept moving around to different places and gave Scriptural teachings inspiring many to join the work. He used to spend 30 to 40 days in each center carrying out rituals and teachings. Everywhere he went and stayed like that, a center of WTT gradually developed there. In this manner, we have so far 33 groups of WTT spread across India. Master EK also started visiting the west in 1971. Initially he went to Belgium. He went for 4 years initially but he felt that a break is needed before the work can resume properly. He then again went in 1981 and I also accompanied him. We made 3 tours to the West together and from then on, the work in the west also started happening smoothly. In 1983, Master CVV prayer was introduced to the groups in the west which happened as a group followed by the teaching. That year Master EK asked me to sit beside him both during prayer and teaching. In 1984, Master EK passed away creating a void to all the groups. Later as some groups asked me to continue the teaching and the work kept happening.

As members of WTT, the foremost thing for us is Master CVV prayer. Anything and everything is possible if one is regular with prayers. Prayer leads you to enlightenment, deepens your awareness and widens your service. Your knowledge and ability grow and that enables more service. You start to experience bliss in service. I keep repeating in every group living held at any place in the globe that be regular in your prayers and service. Let not pride and self-respect hinder the work. Regular prayer ensures that one does not fall into pride. Prayer makes the path easy to tread. It also enables healing to happen. There are groups that perform healing activities and have healing prayer given by Master CVV as their basis. The groups have expanded so much that it surprises me. There are also groups in place which I have never visited. I came to know that there are groups in Thailand, Taiwan and other places performing Master CVV prayers and service activities. When I hear of activities of all the groups, I felt today that WTT has actually developed wings. Winged Globe is the symbol of WTT and the symbol is truly manifesting itself in terms of work. I have given all the groups a free hand to perform activities based on their inspiration and they keep informed me.

WTT Global was established in 1983 on August 27 and that kept expanding to many countries which we never even heard of. I keep getting invited to many countries and the way I get visas to visit all those countries is surprising to many. Getting a visa or not is not in our hands. If the higher plan agrees, a way will be created to visit any place on the globe. I even visited Cuba which is a poor nation but there are many inspired people there. In Cuba, people used to walk long distances to the place of seminars because they could not afford personal transport. Such is the level of aspiration they have. All this is possible because Master CVV stands for synthesis. All Masters of Wisdom work with him

and the groups inspired by different Masters of Wisdom find agreeability in Master CVV. We know very little of the work and grandeur of Master CVV. He keeps expanding his presence globally.

People keep getting attracted to the teachings coming through me because they are not restricted to a religion, name or form. We speak of the ultimate truth and then take the example of great ones and how they worked out that truth. There is only ONE Divine principle manifesting in the form of many intelligences and different names are given to the ONE principle. Different names were given by different religions but the principle remains to be ONE. It becomes a problem if one gets stuck with the names and forms without getting to the essence. If we talk of the essence, then every aspirant gets attracted to the teaching. There are aspirants in Russia and even Mongolia who read the books that I have written and they have contacted me. They even translated my books to Russian and Mongolian languages. So the growth just keeps happening and we need not intervene in everything.

Remember that to seek from God is not the syllabus of the World Teacher Trust but to offer oneself to God is our objective. A father is happy when the son takes up the work of the father instead of just depending on the father for everything. So, this is a path of offering and not a path of desire. Recently I have been sending the principles and objectives of WTT in the form of small sentences to groups all over the group through Whatsapp and emails. Interested ones can go through them and take up some of them for practice. We are in this path to practice and to serve but not to seek. In this manner, each one of us should have our own wings. Master EK tells "Believing the God is nothing special. Anyone with some kind of fear may develop belief in God to gain some relief. But what is important is love for Divine." If you love someone deeply, will you leave that person? Will you forget that person? When one is in love with the Divine, then one always relates to the Divine. That is how the relation between an aspirant and Divine should be. Only then one becomes a true devotee. If you surrender yourself to the Divine, then the Divine starts working through you and a great number of people will be benefitted by your work. The knowledge and abilities just keep growing if one remains connected to the Divine. One should keep recollecting that the Divine is the basis for one's existence and should try to relate to the Divine within and without at all times.

So as members of WTT, we have three main things to do: prayer, self-study and service. Only then one becomes a true member of WTT. Keep relating to the Divine through prayer, keep reading at least one page of a Scripture or a book written by a Master of Wisdom and take part in some service activity, small or big does not matter. Let us remember that WTT is a motherly organisation that is taking care of us and we should offer ourselves to it. Keep recollecting all the Masters of Wisdom you know on a regular basis. They are working relentlessly to lead us to immortality. That is the immediate purpose of Hierarchy. They wish that we realise that death is a myth and it is nothing but a departure from the form. They keep giving their presence to those who recollect them and follow their teachings. So let us all be in their presence.

-Swasthi
