Namaskaram to the brotherhood. Hearty fraternal greetings and good wishes to all brothers and sisters from all over the globe. I am extremely glad to relate to you in the east and the west on the occasion of the festival of the Master which we call December Call. While May Call is the day of initiation, December Call is truly a festival. Amidst the birth of Christ and the New Year, the December Call has come to be so that we celebrate it merry, fully and joyfully. It adds further to the Merry Christmas and Happy New Year. To make myself merry, I have put up a different shirt than the white shirt. So, when there is pain, you have to antidote the pain with happiness which you have to milk out of yourself through humour. Therefore, the greater the pain around you, the better that you milk in the joy from within. Happiness is the outer faculty while joy is the inner faculty. Those who can milk from within can bring their own joy even while there is much pain around. That is a good way of living and that suits merry life. Master CVV maintained humour and proposed merry life, be it teachings and be it prayer. So, let us turn this December Call into a festival and enjoy it.

I once again appeal to all the followers of the yoga path of Master CVV to join the World Health and Healing Order. IT is a higher order which builds the bridge between us and the Hierarchy. Therefore, as many as possible, kindly join. Please only send a message by email and you will all receive a number later confirming your registration. The prayers commence from next Thursday after the full moon of Dattatreya. Do not be lethargic and be alert to join this order. The enlistment continues even after Thursday. Many people also expressed what happens when they are at work at noon on Thursday. I tell them to take a short break for 5 minutes and relate to this order and complete the prayer in the evening.

The Master has given initiation in the month of May and he called today as the day of celebration, a day of festival. So, we joyfully recollect some events relating to December Call and also review the prayers that we do. The prayer is very unique and not really a prayer, though it is called so. That is the first trick that the Master makes. WE don't pray for anything and we only try to align with the Master. As the alignment happens, the Master works and we don't do anything. It is a beautiful way of relating to the Master. It is like you switch on the machine and it starts functioning. He causes adjustments at all levels and rectifies things at all levels. Your intent to align with him, he completes it and makes it as One in two. He works with us in a variety of ways especially on our psyche to change it.

The psyche of an average student is one which is only concerned about itself. We are all taught how to seek the Divine for everything. We pray for this, that and so many things. That is not what the Master likes from us. He only asks us to relate to him. It is a great luggage that we carry in our personality that we always see what we don't have. The Master says, you surrender what you have and don't think of what you do not have. Your personality should be completely emptied so that he can refill it with what is most required. He says, "I will empty the pit of your kundalini and refill it with excellent pure energy".

If you have a half-filled bottle with not clean water, even if you add very holy water, it will not be clean water. So, it has to be emptied before it can be refilled. That is what the Master says and does so that what is really necessary remains and others are thrown out. It is filled for others and not just for yourself. You realise that you are with the Master only to live for others. My life is not my life but for others. That is what is surrendering means. Throw away your personal programme and be eternally useful to the surroundings. There are many in our circles who are completely engaged in working for others. There are many examples of people engaging in different activities not for themselves but for the group.

So, this transformation is what the Master does in a magical way. What he does we don't know and only after it is done, we know the process. When we are in process, we may have a lot of questions but they are not answered until the process is complete. Master continuously works on you and he will not respond to your questions until the work is done. He doesn't listen to what you say but just does what is good for you. The ultimate result is a great and grand surprise. You will become better and better in serving the surroundings.

Therefore, when we say prayer, it is not prayer for anything but just to align. You are not there many times during prayer. You are lost sometimes during prayer for some time. You don't know what happened. Sometimes nothing might happen that you know of. Sometimes you feel very light after the prayer. Prayer becomes an addiction to many because the prayer is soothing for the psyche. In this prayer, you are drawn to the Master. So, the Master's ways are so different that it attracts us. It is not just old things taught in traditions. We are all Sons of God and there are no sinners. Sinner is an old understanding and the new understanding is that people do not know. The world is filled with people who know and who do not know. That is what Krishna says. Jesus says, "Forgive them for they know not." Don't be angry at these people because they do not know. We come back again and again to teach them so that they don't do such things." It requires tremendous patience and tolerance to speak and act in that manner. It is so easy to criticise.

Therefore, the Master has a grand plan. Just you relate to him and he will eliminate all that is unnecessary and refill it with what is necessary. He also asks us to leave what is all unnecessary in our traditions. He asked us to just throw them away and he did that. It requires tremendous guts to do that. He was born into a very orthodox family and yet he did this. He fills us with an energy which is

clean, transparent and forward looking. It enables you to relate to air and sky. It enables you to look inside.

Today I received a call from Bangalore where the group gathered for a December Call. It has been happening since 2003 in Bangalore. It has been going on and on and it became a tradition for December Call to be carried out in Bangalore. From Bangalore, someone asked that someone in someone's family passed away and can he attend the December Call? I said, they can definitely attend. Death need not stop you from attending Master's prayer. It doesn't cause any harm to you. As far as tradition, you may or may not follow but you need not stop the prayers because there is a death at home. Master EK himself, when his father-in-law passed away the day before Gurupujas in 1975, attended the Gurupujas for 3 days. Only the traditional rituals were conducted by someone else while he conducted the rest of the activities.

That is a dimension which liberates you from traditional bondage. We all carry a lot of luggage in the name of tradition, especially Indians. Indians are so much in tradition that they are bound from head to foot with tradition. Master CVV left all such traditions. Why I am saying this is you need courage to get out of tradition and practice this path. You require a certain degree of conviction to come out of tradition when you found something better. Don't you catch a better flight if you get a chance. Therefore, in the same manner, when you find something better why don't you follow it. I know many westerners who came out of Christianity and yet remained with Christ. Krishna, Rama and Buddha did not give any religions but it is their followers who created religions for the sake of power over the society. Master EK said, "Please don't create a religion after me".

Organisation is just a facility to express the truth and organise the work. I get a lot of suggestions from people around but I just smile because what I have to do comes to me from somewhere else.

The path of Master CVV covers truths from all theologies and the Occult Medications given by him cover all those truths. He threw out the unnecessary traditions and just picked up the truth. To do Gayatri mantra, there are many regulations but Master EK simply gave Gayatri mantra to everyone in East and West. In India, ladies were not allowed to chant Gayatri mantra as per tradition but Master EK pushed aside the tradition as he knew that the tradition is a distortion to the truth. Likewise, Master CVV gave mantras in English and not Sanskrit. Mantra is just a collection of sounds given for a purpose and they do not have a language. OM has no language and it is not Sanskrit as people think. Through Gayatri, we relate to the sun, the central sun and cosmic sun. Are these suns only for India or men? They are for everyone. It is not just for Hindus. The cross is not just for Christians. Cross has been a symbol of wisdom from ancient times. The moon and star are symbols used in Islam but they do not really belong to Islam because the moon and stars are for everyone.

So, Master CVV wants each of us to be truthful and original. Do not try to imitate the Masters. Be original. There are some who try to imitate Christ. It is not required and it looks awkward. I saw people in the West who try to imitate Christ. What is needed is the inner change but not outer change. I do not follow the dress code of Master EK. Master EK did not follow the dress code of Master CVV. You have your dress code and I have my dress code. That is why we do not have a dress code in WTT. You just cover yourself properly with whatever clothes you like. So, try to be as original and as natural and we don't put on anything that is special. Be normal, be simple and be original. For getting inside ourselves, that is required.

Master CVV helps a lot if you sit twice a day and align with him. He said, "I will conduct pranayama in you. I will conduct all adjustments in you. I will repair everything in you." The inner psyche is gently transformed and all the loads that you carry are taken away. You feel very light. Most of the people feel heavy in their life. People find it difficult to smile. People even get disturbed when they see a

smiling face. It is a sickness. Only a sick person feels disturbed when he sees a sick person. They might even feel offended thinking that you are laughing at them. We see such an example in the life of Paramahansa Yogananda. People who are self-suffering cannot smile back when someone smiles at them. They cannot allow jokes too. Without a smile, life is not worth living. There are people who smile even while they are dying. If death comes to us and when we are in that pain, can we smile? Socrates smiled in that manner when death was coming to him in slow degrees. Can we smile like that? It is a great example. Krishna smiled when the arrow hit his foot and there was a lot of pain because he knew that the hour had come and he was looking to the angel of death. The angel of death is very beautiful if only you know that. The death also feels happy to look at the smiling one because many times people shiver at the time of death. So, the angel of death feels happy when it seems someone smiles at the time of death.

CVV and MN smiled as death came. It is a recent example. Therefore, I say keep smiling. Negative energies do not come to you if you smile. It prevents you from going into depression. If you go into depression, it is very difficult to come out. Master CVV gave us tips as to how we can encounter a crisis in a friendly manner. With an attitude of love and compassion, you would relate well to a crisis and you come out of it easily. In Mahabharata, we see how Krishna used to smile at people even during the war. That is how he won the war for Arjuna. Smiling creates a half win situation. You already win at the other person when you are smiling. Only when the other person is sick, they do not respond to smile properly. There are people who are too serious and they gradually become sick. It is because you are always at-tension.

I know a lady sitting before me who suffered from cancer for many years and yet she remained smiling. The cancer felt that there is no use troubling this person and left her. There are members in our group who have successfully come out of cancer by continuing to work in the name of the Masters. I know people who are suffering from other diseases and yet they are continuing to work. We have many matured people in our group that everything else is secondary to them other than working for the Master. Therefore, we are given this gift of World Health and Healing Order from the Hierarchy. It is a great gift to members of WTT. They released energies through this order and they asked me to be in the centre of it. They have fixed me to it and said, "You be the third point of every triangle". It is already a challenge to people to find an agreeable person. It is a pity if that is so. Christ said, "If 3 of you are together, I will work with you." This he declared 2000 years ago. People are so individualistic that they cannot find another person with whom they can be transparent. It is due to the age of Kali that people like to be individualistic. Kali enjoys dividing people and even within a person, there is conflict. A part of him wants to do something good while another part may not agree. Kali is successful when it splits a person within. Kali is not happy when two people are together and tries to separate them. He creates separateness in everything and makes you single. You only love yourself and no one else. Then there are people who even cannot love themselves. That is the ultimate. He cannot agree with himself and so with no one else.

Master DK gave the science of triangles. The existing triangles are not very effective. So, they stepped down and they said, "Let at least two persons relate to you (Master KPK) to form a triangle". Let us fight corona with love and compassion and not with hate. At least we should be neutral if not in love. You remember, corona is a huge personality without a soul. If you have a huge personality without a soul, it is the phantom that is creating a kind of illusion in all of us. It has to be related to with compassion. This is what I did in Bad Essen in 1992. There were phantoms hanging around a place and I had to cure them. We can cure with love, compassion and friendliness. I included that story in the book on Healing Episodes. So, this corona is a huge phantom with no direction other than the direction that we show. The more you fear, the more you attract to you. Phantoms survive only by the strength of the soul. Therefore, the pandemic approaches you. So, don't fear and request it to dissolve.

We should invoke the prayer, "Master! Please let us receive the influx of thy plenty of prana..." Master achieved complete control of plenty of prana and we relate to it. Therefore, through this effort, we try to restore the order and contain the pandemic. This is a global effort. Join and fulfil yourself and be a world server. Master DK also said, "Let us form a circle of world servers". This energy is so plentiful and bountiful that I could not sleep for 3 nights until I released it to all of you.

Please inform all the members of the group, your like-minded friends and family members, and do this prayer. If you are at work at that time, you can relate to the energy then and later complete the prayer. Please remember that it should be done before the sun sets. It is a new way of meeting the world's needs and serving the world. Collective prayer to benefit larger communities. There is no sect in it and we keep working with it. Therefore, we gain the eligibility of being in the presence of energy of Hierarchy. All Masters of Wisdom are great servers and even today they serve. There are Masters who have adopted nations to clean and uplift them. It is not a small job. We cannot adopt an additional person and feel it is a burden but they adopt nations. It requires a very large heart. They say, "I am set in charge of Israel". It is not easy to work with Israel because there is a lot of conflict. Israel is a burning fire which has to be put out. So also, there are other places which are burning and there is regular killing. When such a thing is happening, how are we able to sleep? They are all sacrificial pots with gathering of human ignorance. We cannot sleep until we pray for the dissolution of conflicts over there. Conflicts are dissolved here and there, now and then. The place of conflict shifts and as aspirants who want to be disciples, if we know such things, we shall also have to offer prayers. Potential dangers have been averted by the virtue of the work of the Masters of Wisdom and their prayers.

Master VPS during the 2nd World War time seldom slept because he went on doing prayers for those killed and affected by wars. That is why I say we should include in our prayers all those who are affected by corona. Therefore, our work is stupendous and it carries a large responsibility. When we think of those things, our family and personal problems become very pitiful and they are resolved very easily. Individually none of us is important. Note that. You are not important and what you do for others is important. If you count the entire humanity, what is so big about you? You are counted by what you are for others and not what he has done for himself. You may have a lot of properties, buildings and so on but they are not counted. If you build shelters for others, then they are counted. You are measured by what you are for the surrounding life in this path of Masters. Make sure that the life surrounding you is uplifted. That is the true measure at all times. It is due to ignorance in Kali that people have started prayers for self and selfish means.

In this December Call, the Master wants us to be available for more service. Do not feel great about prayers and rituals. Prayers are for you to work and serve. Self-seeking does not make you eligible for initiation. Head-long service to others makes you eligible. You should forget yourself in the service of others. There are many forms of service. There are services at physical, emotional, mental and intellectual level. Make sure that people around are at the same comfort that you are at.

December Call falls in the month of Capricorn and it is the 10th house which stands for fulfilment. Your fulfilment is possible by fulfilling the needs of your surrounding life. If you stop eating meat, you are already serving the animal kingdom. Serve plants and ensure there is more green in the surroundings. We should contribute to growing green. To promote vegetation where there isn't enough vegetation, it is a great service. A candle in darkness has value while a candle in sun has no value. Therefore, serve where it is most needed. Our fulfilment is by being useful to the surroundings. When you align with the Master, your life gets fulfilled provided you serve all the kingdoms. That is how life tends to be very grand. Shirdi Sai Baba has grown plants in a place which was desert-like. He even taught people how to do it. Grow a rose garden where there are no roses. Grow a mango garden where there are no roses. But take care that the weather suits the plant.

Self-service is due to lack of hospitality. It leads us to believe more and more in eating for ourselves, taking care of ourselves and so on. Master EK says that a human is like a son-in-law on the planet. A son-in-law goes to his father-in-law's house and expects a lot of comfort. So, he is a kind of burden on others. We should not be like that. We have to see if we are a burden to the surroundings or not. If I continue to talk beyond the scheduled time, I become a burden to you. Therefore, I stop now. I wish you well. May the Master bless you and take care of you. May he give you strength to enable you to serve the surroundings.

I hope the group at Bangalore liked the talk because it is mainly intended for the group life happening there. I felt that I was sitting in Bangalore and delivered this speech which is for everyone across the globe. I continue tomorrow. Thank you.
