Speech by Sri BRK Raju (Navaneetam):

My Namaskarams to the lotus feet of the Master. My hearty fraternal greetings to all the centre heads and members of WTT who are taking part in this event. The formation of WTT happened as per the Divine plan. Its roots are in the higher circles. The Divine plan descended through Master EK and resulted in the formation of this organisation which he himself oversaw for a period of almost 12 years and he handed over the reins to Master KPK. Since then, Master KPK has been relentlessly working to expand the organisation and managed it very capably. He ensured that the spread of knowledge and the spread of service activity happened simultaneously all these years. The work of WTT has expanded into so many countries and groups that even the managing council finds it hard to keep a track of all the activity that happens across the globe. It may surprise you but it is a fact. And all the work happens in a voluntary manner with no expectations. There are members of WTT who have been working silently for decades together and very few know the work they have done. All this is possible due to the inspiration coming from Master KPK and the blessings of the hierarchy. We were always informed that service is to uplift oneself and not to think that we are doing great service to humanity. Prayer, study of scriptures and service are the three main objectives of members of WTT.

I consider that we are all blessed to be part of the golden jubilee celebrations of WTT that are happening in the physical presence of Master KPK. It is also a blessing that this event is happening at this holy place of Radhamadhavam. Prayers and rituals have been happening for decades together at this prayer hall ensuring that its sanctity prevails. In relation to this event, many members have sent their messages to me and the most significant one among them is "It is a blessing to be a member of WTT".

There are some elderly members of WTT who will be speaking today on this occasion. After that, the centre heads will be felicitated by Master KPK. It is just a token appreciation to the responsibility that they took up and discharged for many years.

Firstly, the Chairman of WTT Sri K.S. Sastry garu will speak.

Speech by Sri K.S. Sastry:

Namaskarams to the lotus feet of the Master and Namaskarams to all those who are present in this event. After founding the World Teacher Trust, Master EK gave certain instructions which are to be followed by members of WTT. To be true members of the trust, one should know them and follow them sincerely. This trust runs with the grace and blessings of Hierarchy and the ultimate aim for all of us is to realise the all permeating Divinity. We were entrusted with different activities by Master EK which are all part of the training that we have to undergo to reach the ultimate state. Different types of service activities are taken up by the members and they work no expectation of recognition. We do not ask for any donations. If someone offers to donate, they just donate silently and very few will know about it. That is how activity happens in silence and secrecy in the WTT. Everyone is treated equally and that is what Master EK demonstrated and taught us. Master KPK also continues to direct us on the path shown to us by Master EK.

I remember the day the WTT was registered officially in 1971. Master EK told some of us that an organisation named World Teacher Trust got registered today and this organisation will expand gradually to many places across the globe in the years to come. On that day, we did not expect that WTT would grow to the level that it has reached today.

Remember one thing. We all are not working as a part of WTT but we all are living in this organisation called WTT. Because none of us are working for money. The service that we offer through WTT leads us to a better way of life and a life in association with the Grand Masters including the World Teacher. It finally leads us into the Divinity itself. All that we do is an offering to the Divine. We should remember this as members of WTT.

We should also remember that just by knowing about WTT we cannot become members of WTT. Only through practice, will we become true members of WTT. We should learn to relate to the Master or Divine through all the service that we offer. Master EK taught us during Homeo classes, "Remember that every patient who comes to you for a medicine is being sent by Master CVV himself". That makes us remain alert and sincere during service. We should also learn to treat everyone equally by seeing the Master in them. This recollection should happen from time to time. Master EK also told us that there should be purity in motive. There should not be any selfish motive in service or prayer. Prayers and service should happen with no expectations. Master EK also instructed that there should be continuity of purpose. If you take up a good activity, it should continue for years together. If we are regular in prayers and service in this manner, Master CVV promised that he would take care of the rest. He even promised to transform our personality and neutralise our past karma. One of the reasons for Master EK taking up Homeopathic medicine is that it has the power to even cause changes in the personality of a human being.

So let us all live together for many more years to come in this World Teacher Trust.

-Swasthi

Speech by Sri Ch.S.N. Raju garu:

The background story of the WTT traces back across many centuries. At the beginning of Kali age, Lord Maitreya was entrusted the responsibility to be the World Teacher by Lord Krishna himself. Since then, Lord Maitreya has been working out the Divine plan across the globe. A big hierarchy works under him to guide humanity towards the ultimate goal. As per the plan, many Masters of wisdom took birth at different places across the globe and guided the people at that place and inspired many. All their work has been impersonal and Master EK also worked in that manner. He had no personal plan in his life. His healing and teaching work is magnanimous. The kind of work that he did is just unimaginable to us. The number of subjects that he was expert on is something hard to fathom. He could link scriptures from across the globe and pertaining to different religions and give us a consolidated view. This is something which cannot be learned but he was born with such a talent. He could link spiritual subjects with modern science. As members of WTT, we should all be reading at least a few pages from the books of Master EK or Master KPK. As one gains more and more comprehension of the wisdom given in those books, one gets to understand the whole plan of the

Hierarchy for humanity at large. We should consider ourselves to be lucky to be associated with the work of the Masters of Wisdom. It is also a great opportunity which we should not take casually. As long as we keep living just for ourselves, it means we are not serious in this path. So our attitude should change towards the path. Let the dimension of our thought be much greater than the petty things in our objective lives.

Message by Master KPK:

There is an ancient saying that “All that is and happens is Vasudeva or Divine”. This is the teaching of Bhagavatam as well. So, I consider all of who are present here and who are listening virtually as forms of the Divine. My hearty fraternal greetings to you all. It is easy to say that “All is Divine” but are we able to recollect it in all our activities is the question. If we remember it, then we relate to the Divine and receive from above. Otherwise, each one falls into their own problems. So, aligning with Divinity is what matters, then THAT becomes this. When THAT becomes this, life moves on effortlessly and in a much splendid manner. A truly intelligent one aligns with the Divine because nothing is greater than the strength of Divine.

Two years back, I did not expect to take part in this golden jubilee celebrations of WTT. In 2019, I visited the temple of Lord Shiva in Srisaillam and I felt that it is the last temple that I would be visiting for this life. I even received a message from within that all the duties and responsibilities entrusted to me have been fulfilled. So, I felt that I would not be present physically for the 50th Gurupujas in Visakh which happened in Radhamadhavam and also for the Golden jubilee celebrations of WTT. However, things took an unexpected turn and I happened to take part in both these events for which I am very happy. So, it is all happening as per the plan coming from above. As we align with the Divine within, we are linked to the all-permeating Divine as well and we keep receiving the Divine plan to be worked out. Then we know what we are to do and we can keep working it out. In that way, the life moves on like a flowing river until it reaches and merges into the ocean. Masters look out for such aspirants and disciples who are aligned to the Divine and work given to them.

Many present members of the WTT have been associated with the Masters of Wisdom in the past through other organisations such as Theosophical Society, Arcane School, etc. It is as per the plan being worked out by the Masters of Wisdom that they have again gathered under the auspices of WTT to progress further in the path. Each of us are at different stages of evolution and accordingly, we have different levels of awareness. Our objective is to always grow in awareness and in all aspects. The WTT is a stage for all of us and anyone can be a part of it provided one has the orientation towards Divinity and service. The WTT does not belong to a particular group of people. It belongs to the whole of humanity and mainly to those among humanity who aspire to reach the Divine and serve fellow human beings. There are many humans across the globe who have such an orientation in life. The WTT is a stage to all such ones. As members of WTT, we should try to be impersonal and to be neutral. It requires a lot of courage to be so. People having a lot of likes and dislikes cannot be impersonal and neutral. We should try to reach a state beyond likes and dislikes and be only oriented towards our duties in life. If you have wants and desires, it means you are an infant. Infants keep asking for one thing or the other. Elders should be oriented to what they need to do and not what they want. If you are an infant, you cannot attract a Master of Wisdom towards you. Only duty oriented ones fall in the eye of a Master of Wisdom. Having no hate and no desires is important to progress in the path.

In WTT, there are members right from pre-school to university level in relation to the path and everyone keeps progressing based on their orientation. The wisdom coming through WTT is not something new but it just told afresh to attract the present day minds.

I will briefly recollect the story of how the formation of WTT happened. In 1971, on November 18th, the WTT was registered with 7 council members initially. Later, Master EK sent letters to 49 of them inviting them to be members of WTT. I still have the letter which I received from Master EK. Before that, I was called by an associate of Master EK (Sri Dutt garu) to prepare the bylaws and other documents required to register a trust. I asked Master EK to prepare a draft of the objectives of the organisation. I prepared the rest of the documents and I myself went to the registrar office on that day to complete the formalities. Since the registrar knew me well, he just asked very few questions and completed the registration. The next day (19th Nov), Master EK called for a meeting in the house of Sri Dutt. That day

Master EK put up the pictures of Lord Maitreya, Master Maruvu and Master Devapi on a table. He told us, "Today is a grand occasion in my life. These are the Masters whom I follow. It is their work that I try to discharge. It is Master CVV who led me to them. This WTT has been formed with an intent to work out the plan that comes through this Hierarchy."

There were some organisational difficulties faced in the first 5 years because not all the members knew the stature of Master EK and the plan that he was working out. So, some of the members whose thoughts were not aligned with the thoughts and plan that Master EK wanted to implement, were cordially asked to resign from the council. So, in the initial years, the WTT went through some hiccups but because of the purity of intent that Master EK had, it passed through all those phases. Many Gurupujas were organised under the auspices of WTT and the organisation gradually spread to other places as well. Until 1977, there were centres only in Visakhapatnam and Guntur.

In 1976, we planned to celebrate the 50th birthday of Master EK by printing a souvenir. A discussion happened regarding the funds that would be required. Some of the members felt that all the required funds cannot be gathered through donations from the members and so we ask for donations outside. Some even said that we can accept advertisements from some businesses. I did not like that idea and disagreed with them. Some members did not like it and they left the whole job to me. I was not monetarily well off at that time but I had the courage to do it because of my trust in the Divine. That has always been my strength and I look to nothing else but Divine. With that strength, I took up that work and help came from unexpected sources and we could print the souvenir without seeking from anyone.

From 1977, Master EK started going to other places spreading his healing and teaching work. For 7 years, he worked relentlessly offering his homeo medicine to thousands of needy people. There was never a time at which he was not ready to offer medicine when someone needed it. Simultaneously, he was teaching the interested ones in different subjects and also the Scriptures. While that work happened, centres came up at places such as Sriakulam, Rajahmundry, Vijayawada, Hyderabad, Machilipatnam and so on. He was also writing many books when he was not involved with healing or teaching activities. In this manner, from 1977 onwards, the WTT kept expanding and centres kept growing. I am telling all these details because as members, we should all know how WTT reached this stage after undergoing a lot of changes. By 1979, the older members of WTT who had differences of opinion with Master EK left the trust and only the ones who were completely in alignment with the work of Master EK remained. Most of them were youngsters and many of them are now the elders sitting here. All of them grew under Master EK and were trained very well into taking up different responsibilities and discharging them. All of them underwent a lot of transformation and had experiences in association with the Master energy.

Master EK mentioned that one of the objectives of WTT is externalisation of Hierarchy. It is part of the grand plan of the Masters and this externalisation happened across the globe through WTT. Today we are also releasing a book containing the guidelines for the members of WTT. I already shared these guidelines through whatsapp messages and emails in a phased manner. Now they are compiled together and published as a book. Many of these guidelines are for practice and members can take them up based on their interest. We have to relate to the work of Hierarchy. There are many members of this Hierarchy and we should become aware of them, their work and teachings. Then expansion of consciousness keeps happening.

After the expansion of WTT in India, the expansion happened in other countries as well. Master EK initially travelled abroad for a few years but he did not get the attention of people he was expecting. As a result, he gave a break and again travelled in 1981. That time, I also travelled with him and he told me that this time groups associated with Master DK and others Masters might come in touch with us. So, this is not a plan that started with Master EK. It is a plan which started long back and was continued by Master EK. In the tour that took place in 1983, a lot of attention was gained in the West. As the work was about to take off, a very unfortunate event happened in the departure of Master EK in 1984. But he laid a strong foundation which we could build up. I also learnt the basic rule which Master EK followed which was to relate to the Divine in all and having no personal agenda. People who have no personal agenda and who are ever alert to receive from the all permeating Divine are the ones who will be inducted into the Divine plan. It is a matter of alignment. The moment you are aligned, you are

not there and IT is there. The more you remain in touch with THAT, the more activity happens through you because there are no more limitations. You have limitations but when you are with THAT, there are no limitations as to what can be done.

Remember that there are no rights in spiritual organisations. There are only responsibilities. There are no placements and positions. It is all responsibility. It all culminates in world service as said by Master DK.

So, coming back to the story, expansion of WTT happened well in India but as expansion was to happen in the West, Master EK departed. Each one of us felt a void when Master EK departed, that too so unexpectedly. There was some turmoil in the trust at that point and some people left the organisation. We should see that it is all as per the Divine plan because we know very little. Let there be no opinions or judgements as to what anyone left or why anyone did something.

There were certain instructions which Master EK gave me before his departure and I followed them sincerely. The rest of the work happened as per the plan. 36 years have passed since the departure of Master EK and by his grace, the organisation kept growing. We are now celebrating the golden jubilee though a bit restricted. However, it happens, let us remember that it is all as per the Divine plan. We should always accept what time and nature presents to us.

One of the important aspects in WTT is that it presents to us a synthetic view of the Divine plan. We do not reject any path or religion and everyone is accepted. We follow all the Masters who have been guiding the beings right from the beginning of creation. The path that we trace as a part of evolution is given by Master DK in one of his books titled "Ponder on this". By reading such books, we get to know the path that we follow and how grand it is. The more we read and be aware of the teachings of Masters of Wisdom, the more we get into their presence. Following and progressing in the path become very easy when we are in the presence of such ones. In their presence, there is nothing you cannot know and there is nothing that you cannot do. What more do you want. Remember that this is a path of alignment and attunement but not attainment. Once you are aligned and get in touch with a Master of Wisdom, you will be introduced to many more. They are all very compassionate ones. They just look for our orientation and alignment.

So keep making an effort to expand and do not localise yourself. Just visualisation is enough to expand. One is elder to the other only when has more awareness than the other. So seniority is not decided by age but by awareness. It is ignorant to think otherwise.

In this manner, WTT as an organisation has completed 50 years. The work will continue to happen through WTT as long as we follow the principles established. The work should continue with the right intent and dedication. Prayer is a very important component to be in the path because prayer is what connects you to the Master in you. The Master in you leads you to the Hierarchy and further to the Master of the universe. We should realise that the creation can be experienced through service and that is what needs to be done forever. Master DK said that aspirants should stick to "Meditation, study and service". We say "Prayer, study and service". Whatever be the words, the essence is one.

I felt that the Masters of Wisdom have been much more active in the perceptible levels as well. Their contribution to the control of the ongoing epidemic is very high. A wave is going to come with Homeopathy spreading and becoming more popular.

So that is the message for today. Let us remain with the thought of Master. That takes care of everything. Let us all try to remain in alignment. Let us all keep progressing in that manner.

-Swasthi
