Hearty fraternal greetings and good wishes to all the brothers and sisters who are relating to this evening program in connection with completion of 39 years of work relating to the World Teacher Trust, which was incorporated on 27th august 1983 on a Saturday evening in a very grand, unusually grand way. It was not only unusual it was unnatural and it had its own nightmares. And we are here today to celebrate completion of 39 years and entry into 40th year.

I congratulate all the members of the WTT all over the globe for having reached this milestone in relation to the WTT activity that was commenced on that day. It was 27th August it was also Saturday and after the incorporation there was celebrations and we all went to a vegetarian restaurant in Geneva to conclude the celebration. But the celebration was followed by many calamities. Very few from that time continued in the trust. And what I can recollect is, there is one from Belgium by name Lucie Merten and her brother Benoît. And then there is one from Munich, Germany, he is now in Ingolshiem, between the German and French border by name Paul Meienberg. All others have slowly disappeared. Among the committee members, a few members of the Trust around that time continue to be with us and an entirely new group, varied, of members expanding up to South America, North America, Europe. Everything has happened.

The WTT is steered or driven not by any person but by the Master whom we know as Master CVV. It is the Aquarian Master who continues to conduct the activity of the WTT be it in India, be it in Europe or be it in South America or Central America or North America. It is the Master who conducts the work. He is the one who gathers the spiritual groups at a global level. He himself initiates people into

the sound CVV and connects people. And for the WTT, the bedrock, the strong foundation, is Master CVV upon which, all eternal teachings coming from the Hierarchy are slowly introduced in a manner which is intelligible for the listeners, which enables the listeners to practice. And those who conduct the prayers relating to Master CVV and follow the teachings, which are very varied and huge, only on the basis of the prayer conducted, the wisdom is comprehended. And the keys to wisdom are recollected to get the necessary inner transformations.

Therefore, the fundamental for the WTT is the energy of Master CVV which has to be familiarized with through regular morning and evening prayers. Seeking his support, we try to live by the teachings that are given. As you all know, the teachings of almost all Masters of Wisdom have flown through in all these 40 years. Right from the teachings of Sanat Kumara, Lord Maitreya, teachings of Master Morya, teachings of Master Koot Hoomi, teachings of Master Djwhal Khul, teachings of Master Count Saint Germain, teachings of Jesus the Christ, teachings of Master E.K., teachings of Madame Blavatsky, so on and so forth. So many varied teachings are given and we also taught the teachings right from the beginning of the formation of the planet such as the teachings of Kapila. So, enormous teaching to expand the comprehension of the students was done, as I said, on the foundation of the energy of the Aquarian Master who is called the Avatar of Synthesis and whom we invoke regularly twice daily.

Those who remain in the WTT remain so only due to this connection with the Master. Others will come and go. Many have come, many have gone in all these 39 years, in Europe, in all those continents. So, also in India from the last 51 years. Only those who remain, that relate to the energy of Master CVV will remain with the WTT. This is a secret which is well written by Master E.K. in one of the messages he gave in relation to May Call, "CVV, the unseen Aquarian energy, drives us and drives our lives also and he is a scientific miracle". That is what Master E.K. says, "He is miraculous and he is scientific." Master CVV yoga is not only a scientific yoga but also a miraculous yoga. The miracle part remains with him and unfolds from time to time. And those who gain a synthetic mind only can get into the energy of Master CVV. For analytical minds it is very difficult to get into the energy of Master CVV.

Analysis is an activity of exhalation that happens through speech as we exhale. But every exhalation requires an inhalation unless one is conscious of that inhalation, he cannot consciously exhale. Conscious inhalation transforms analytical mind into a synthetic mind. Unless you gain synthetic mind and analytical mind which we use regularly through speech, until these two are linked up, no one can get synthesis. That is why people break their heads to understand most of the things that happen in the WTT. There is a part that every member can understand. There is a part which no-one can understand. It happens. Only thereafter, you can understand. Experiencing it precedes the comprehension. To comprehend and then to experience is the work that an analytical mind expects. But a mind of synthesis allows an experience to happen first and later it details into an explanation. That is why things happen intuitionally and then the logic is developed later. If you go by logic, you can never understand the path and much more so with Master CVV.

The WTT cannot be organized by individuals. Many people have the glamour to organize the WTT activity. They should know that it is the Master who organizes through them. When they can submit themselves to the energy of the Master, the Master organizes through them. And not all can organize it because they are not yet into the synthesis of the mind which has the ability to contact the background. Analytical mind cannot contact the background consciousness. Analytical mind forms five to ten percent of your awareness. A mind of synthesis enables you to contact the background consciousness and that would be having a 25% of your mind. Even that is not sufficient unless you always recollect the background awareness. "May we live in the awareness of the background" is the

key to conduct WTT activity. People, with the kind of mind that they have, with the kind of personalities that they have, they have to submit themselves to the process of yoga which is given by Master CVV.

Master CVV's path is a path of utterance. It is a path where the energy expresses as utterance and that utterance has to be full of love which is another word for synthesis. If we have ability to include all and express things, then your expression is acceptable. Such expressions are accepted over all these years. Therefore, for 40 years it continues to live. Regardless so many nightmares we had and we met so many Cretan bulls, we had Nemean lions fighting and we had many Hydras which had to be put off. So many things have happened in these 40 years. Not all know the total story. Does not matter, you don't have to know. But what is important is, we need to learn to function in an impersonal manner. People with personal likes and dislikes cannot organize the WTT. People with personal likes and dislikes, personal comfort and discomfort, personal loss and profit, anything personally motivated in you, disables you to carry out the work relating to the WTT. This is a very tough key relating to the WTT - only for those who are with the practice of yoga as given by Master CVV which is distinct from the age-old practice. The practice is, stop speaking much. Start gaining awareness of inhalation more than exhalation. Exhalation and speech are common to all humans. Conscious inhalation, conscious exhalation, when these two are well equated you gain a mind which is a mind of synthesis. And your awareness functions from the brow center. Then only, you will be able to contact the background consciousness. And then you submit yourself to that background consciousness, and it works through you. Don't think you are working it out.

For all these 40 years outside India and from 50 years in India this is the key I followed. That I allowed things to happen in an impersonal manner. I had not exercised any personal likes or dislikes nor did I look for personal comfort or discomfort or personal profit or loss in doing all this. This is the key which I wanted to give you all today. If you can, you can do that. Turn your mind to relate to inhalation more than exhalation speech. Relate more to inhalation, go to the heart center and equate inhalation and exhalation. Go up to the brow center. Stay there and then all will happen. The Master will hold your hand and conduct the work through you. Not only the WTT work but also your personality work. Your personal life is fulfilled and then the Trust work is fulfilled. Every work that you do is fulfilled.

Fulfillment comes only when you gain a mind of synthesis but not so much a mind of analysis. Logic is given a secondary preference in Master CVV yoga and enabling connection with the synthesis in you, is given the primary importance. That is why many things you may have seen that I have done over all these four decades, is only later understood. When it was done, it was not really acceptable to many but after it was done it was accepted. The reason being, that is how the Master works. Please therefore, when you think that you belong to the WTT know that the foundation or the bedrock relating to the WTT is Master CVV. And even Lord Maitreya has taken this energy and conducts the fusion of East and West. These are the facts which are recorded, recorded. I can supply those facts, there is no problem. Therefore, all over the globe we are now speaking of 39 years of celebration of World Teacher Trust Global which had its own evolution. It started as WTT Switzerland. Then, it became WTT Europe. Then, it became WTT Global. World Teacher Trust India formed 12 years before. And WTT Belgium also formed much before. But this is the way the Master conducts himself. You cannot see the Why of it, you can only see the How of it.

One good thing that an occult student would do is, stop thinking of the Why of it and start understanding the How of it. When you go with the question of Why, you will be stopped by concrete wall. If you try to know the How of it, you will make an understanding. That is how the work has

happened all these years, with something known, with something unknown. And many have come and served for a while and then they left according to their energy. When you are with the synthesis you stay on with the WTT, you stay on with the energy of Master CVV. So, the fundamental is the energy of Master CVV. The substructure is the teaching and the related practices.

And then, there is a consolidation according to the transformation that happens to you with the teachings when you turn your life from serving yourself to serving the society. The more and more you are for the others, the more and more you are relevant for the WTT. The more and more you are for yourself, you become irrelevant to the WTT. You don't know, it happens very easily. People may be thinking that they are with the WTT, but it depends upon if one's own submission to the services of the WTT are service to the life in general and not serving oneself. Selfish people are kept away. People who are willing to do service would stabilize in WTT.

These are fundamentals to the WTT. I repeat, the yoga of Master CVV is where you gain a mind of synthesis replacing the worldly mind of analysis. That is possible only when you gain the right expression of the throat and right experience at the brow center. This is our practice relating to the yoga of Master and then the teachings. Try to practice the teachings as much as you can which would all drive you to transform your life from self-serving to serving the group and serving the surroundings. Then only, you can remain in the WTT. That is the reason not all can stay in the WTT. And for that reason, I congratulate you all because you have all been with the WTT. And I have known from the beginning all who have come and joined, who have remained and those who left. And there are some who are in the process of leaving. There are some who are in the process of getting into it. There are some who are stabilized in it. The whole current I am witness to it from the beginning.

So please make sure that you follow these fundamentals. This is what I wish to tell you as we enter into the 40th year of the WTT relating to the West. Fortieth year relating to the WTT. First, the Master is Master CVV. The teachings are hierarchical teachings in which Master E.K.'s teachings are also a part which in India we follow mostly.

People think learning mastery of great teachings is enough. It's OK if you are with one teaching or the other, it will lead you to other teachings. But I made sure that all Masters, all hierarchical teachings are made available at a global level and it is up to you to relate to it. And then, it all should culminate into a life of service. Then only, you can join the Spiritual Brotherhood. Master CVV has planned global spiritual groups. A brotherhood which would contribute and substantially contribute to the work of the Hierarchy. This is what I wanted to communicate to all today.

And now again, what are we to do further in the WTT? We need to consolidate our groups. Consolidation of groups is based on what I have said now. The meditation is the prayer related to the Master CVV, the teachings of the Masters and then try to see what service you can do and turn your life into a life of service, not a self-serving life. Just try to do it in all our groups all over the globe. That is the only way for us to walk into the eternal life which we call the Spiritual Brotherhood. That should happen with all of us.

And WTT, as I said, is not organized by any single individual. Please note that. WTT is not organized by a group of Executive groups of the WTT. They are all means. WTT is not organized by the Advisory group which is as big as 40-42 members. WTT is not organized by the local group coordinators. WTT is organized by Master CVV. This, you should know. If you know that and if you tend to be impersonal, the work proceeds through you. Otherwise, you are replaced.

Many who have come, who felt the pride of organizing the WTT have all gone. Many have come and gone. Only those who can continue to be impersonal and those who do not come in the way of the

flow of the energy of the Master, only they would stay and joyfully conduct the work. The work happens through them and they feel the joy of work happening, not the drudgery of doing the work. The mind has the drudgery of the heaviness or the tiredness of doing the work. But if you are in a state of synthesis, the work flows through you, the Master conducts the work. You see the beauty of the work happening and you too join the celebration of the work, not feel the drudgery of work. Otherwise, the work will cause lots of tensions in the head. In the process, you gain a mind which will enable flow of higher things through you. That is the very purpose of the whole discipleship. Let the higher energies pass through you, transform you and help the surroundings. When you only have an analytical mind, you become an obstruction or a block and through life events will be thrown out. That should not happen. So, try to gain a mind of synthesis. This is a yoga relating to synthesis, relating to Aquarian age.

So now, in the beginning of the 40th year, I have shared some ideas with the core group which I wish to share with all of you.

As you all know, we have introduced during the Covid a prayer for the global welfare. Make sure you are sincere in attending the global prayers relating to the world health. It shows your commitment. If you are not committed to global welfare, what for are you? What for are you if you are not committed to global welfare. Don't think it is given by Parvathi Kumar. The misfortune is, people see the instruments through which it has come. They cannot see the functioning that is happening behind the scene. And it is all an impulse coming from Higher Circles. So, your participation in the World Health and Healing Order shows your commitment to the Spiritual Brotherhood and then the global work that we are doing.

Likewise, we have also initiated a rhythm relating to Shambala which is the need of the hour. The need of the hour is relating to the rhythms of Shambala for which we have set up a Thursday reading of the book along with the prayer which we may kindly do. We opened a portal for this purpose. (<https://www.facebook.com/groups/wttshambala>) Make sure that you are active to post one painting or the other from our brother Nicholas Roerich and then give a comment. Others also will give you a comment. It belongs to all of us and we should actively participate in it to make this awareness sink more and more into the minds of people. When you post a painting of Nicholas Roerich and then give a comment and then relate to the teaching on Shambala once in a week, into your mind the energy of Shambala that is good for you sinks into you and through you into the surroundings, which is the need of the hour in these times where there is a global crisis. As long as the crisis exists, we should continue to do this kind of additional work. You cannot run away from it if you wish to be truly the in-Spirit, the member of the WTT.

Then we are opening four more portals in the next few weeks or months. It is still in process which I announced to you that there are so many members in the WTT who are good painters and good artists. So, we are trying to open a portal of the WTT which we named as the WTT Ajanta. Ajanta are the most ancient, the most popular global cave temples where ancient most paintings are still remaining and it's a global visiting center in India, in West of India. So, we call it WTT Ajanta where our WTT members with some administrator whom we nominate, he or she will take it up monitoring the portal and all people are invited to send their art or paintings to be posted as WTT Ajanta like we are doing with WTT Shambala.

Then, we are offering another portal for all the psychologists and psychiatry doctors. For psychiatrists and psychologists, we are opening a portal at a global level where all psychologists and psychiatrists relating to our trust can participate in it. And we keep it fairly open to all so that others can also join to participate in it and enrich knowledge as between themselves, which is also open for members to

look into. This is another portal which we are opening and named it as WTT Arkona. Arkona means the angle of the Sun. Angle of the Sun, Arkona. We have an ancient city in India. A temple was dedicated which is called Arkonam. Arkona means, Arka -is the name of the Sun, Kona is the angle. We have Kumbakona like also Arkona. So, for psychology and psychiatry the portal is called Arkona, WTT Arkona.

We are also planning a portal for Astrology in WTT. There are so many astrologers in WTT. From very mature, very senior members to people who are leaning things and there are people who are practicing Astrology. All these can be identified under another portal where there can be exchange of wisdom relating to astrology which is also open to all.

Then recently, we have opened for wisdom interaction, another portal called Wisdom Buds (https://t.me/wtt_wisdom_buds). So, these are all the series of portals which we are opening in the year to come to celebrate the 40th year of the WTT in Europe. This would mean an active participation by all the members of the WTT. According to their abilities and according to their inclination, to share whatever knowledge they have. Sharing knowledge upon a common platform is an act of love. Sharing knowledge on a common platform for the benefit of a larger group is a grand act of love.

Love does not mean what people generally think. Love is in sharing, love is in distribution, love is in serving. Now, love does not mean one man loving the other. Love generates when there is a belonging for others. So, whatever you have, all of your resources, it can be financial resources, it can be intellectual resources, it can be physical resources, anything that you share is seen as an act of love in the age of Aquarius. The whole definition of love is extremely expanded by the Aquarian energy. That you share whatever you have is an act of love. That you distribute whatever you have is an act of love.

And finally, I tell you that there is a demand for audiobooks relating to the teachings of the Master and relating to the teachings that came through me and there is a demand for voicing these books and give audiobooks for which, we are looking for those who have melodious voice and who have ability to express clearly and then those who are inclined to read these books. We will be collecting information so that we will select for every language the related persons that would render the book in the audio manner so that people don't need the physical book or an electronic book to read. You can just close your eyes and keep listening. So, this voicing the books is also a program which we are planning.

So, the 40th year that we speak of in the WTT Global is impregnated with five different programs which eventually we will let you know in greater detail. I just gave a kind of breaking news to you all so that you can feel the joy of the further work that is going to happen in the years to come and that would set the WTT fully active with all talents related to our members displayed in the portals of the WTT so that we are all participants in relating to the work and we let the energies flow between us. In these two years we have developed a good measure of communication between us. The groups are able to communicate, inter se, and this has helped.

So, we should know each other, we should know the work that is happening in every group, and we are developing an internal communication system. Good things have happened in Covid and we continue this work for the next years. Until we fulfill these programs, I don't envisage new programs to be set in and we move on growing in this energy.

This is what I wish to communicate to you all and I wish that all of you continue with this work and grow into your own being. Because the work has a double effect. The initiations happen to you, you

don't have to worry about your initiations. As much as you participate with the yoga of Master and the teachings of the Masters and then the service, the initiations happen, the awareness grows. The measure of awareness is what is called an initiation and it is measured by those who guide us. So, don't worry about initiations. Keep following the yoga of Master CVV, relating to the teachings and bringing them into practice and, as much as possible, turn your life into a life of service. That's all. The rest is taken care of and the goal is that you join a spiritual brotherhood which is an immortal brotherhood. And immortality also happens on the way as you conduct yourself. But if you look for your own immortality, you tend to be selfish and the progress will stop. People who look for self-progress are arrested. People who look for general good, for general welfare and general upliftment those are the ones who are counted in the whole game. So, turn your attitude towards the welfare of others, conduct prayers, study the wisdom. Make your life a life of offering but not a life of self-seeking. That is the key in relation with the WTT which I volunteered today to share with you all.

Normally we have to meet next week for the Merry Life but today being 27th of August I thought we would all meet online and then share these views. And I also wanted to share two things: the fundamentals that help you to remain in WTT and then the future program of the WTT. And then, congratulate you all for having joined this evening program. I told the organizers, "I won't be speaking more than 30-40 minutes". It is not a regular teaching class and this is what it impelled me to inform you. I am impelled, meaning I am propelled from within to inform you, so I inform you. Take it and work it out. And once again, I wish you all well and I congratulate you for being in the WTT in this regard and with this attitude. Kindly continue with this. It will help you for lives to come.

May the Master bless you all! Wish you all the best! Enjoy your day and if possible, the evening you may celebrate in your own way and progress with it. And I thank you again and again for being together.

And we continue whatever we are to continue with as long as the breath is there, the voice is there, the inhalation and exhalation, as much as it happens. So much as you relate to it you are into synthesis. Don't think you are into synthesis unless your breath is equalized. And unless your inhalation and exhalation are equalized and you are able to feel the pulsation with three breaths and you are able to feel the resonance of pulsation up to your brow center, which is called the step of Pratyahara. Only then, you can feel comfortable that you can listen from within. Until then, it's all illusion and hallucination.

There are so many illusions, so many hallucinations, which I keep on listening when people send me emails or talk to me on telephone. It's all because they haven't developed the mind of synthesis. So, the fundamental to function in the WTT is to gain a mind of synthesis where you tend to be very inclusive not very exclusive. And where you tend to be more and more inclusive and a little analytical. Analysis is needed but the important is to gain the comprehension through a mind of synthesis.

That's what Master bestows to us. "The Avatar of Synthesis who is around, let His energy pour down in all kingdoms. May He lift up the Earth to the Kings of Beauty" is the first stanza of great invocation which WTT has introduced. Please note that. 'Great Invocation' was only given with four stanzas. It was a great commotion in 1983 when we introduced the fifth stanza which is, "From the Avatar of Synthesis who is around, let His energy pour down in all kingdoms. May He lift up the Earth to the Kings of Beauty". When this fifth stanza was given, I stood by it. I explained to all groups relating to the Arcane School and others and how it came and how it should be and we continued with it.

So, we are with the Avatar of Synthesis and He is here to lift us up to the Kings of Beauty and therefore to us, as I said repeatedly today, the bedrock is the prayer. The teachings are the sub-

structure. They help you to transform through service. We continue with that; with whatever inspiration we have. Without inspiration, nothing can happen. If inspiration dies, everything dies. If inspiration is the fertilizer that causes continued growth, when the inspiration dies, there is no more growth. Even in the seed there is the will to grow. The will to grow that continues to work until the tree grows. Once the tree has grown to its optimum, there is no further growth.

Therefore, make sure you hold on to the inspiration since you have set a target to function as a soul, to submit your personality to the soul. And we should be soul-infused personalities but not just personalities. A grand personality is nothing from the Master's viewpoint. A grand personality, which people develop unconsciously, that they are all doing the wrong thing. Don't develop personalities. Develop the soul and ensure that the personality is infused by the soul and then this grand work can be contributed. May that be so with all of you.

I have only these ideas to share with you. I had a longing, a very strong longing to see you all through online. Therefore, this is organized for you all. I thank our brother Bharath who takes extra pains to make this online program possible and he never fails in doing it. He has been a regular attendant to arranging these programs.

Unless some people silently conduct the work in a continued manner, these programs do not continue. There are good number of members in the WTT who silently contribute. Those are the ones whom the Master appreciates and not those who make lot of noise. There are people who make noise on account of talkativeness, on account of excessive exhalation and there are few who associate with inhalation. Gain the mind of synthesis, gain the Voice of Silence that speaks from within and conduct the work.

We shall have to go through our own prayers with greater intent to see how much we fit into our prayers. "May we speak the silence without breaking it", what does it mean? "May we speak the silence without breaking it". How can you speak the silence unless you have gained the ability to listen to the silence? So, these practices shall have to be recollected from time to time to put ourselves in order. A disorderly personality, which is not in connection with the soul, cannot deliver anything except noise all around. Let noise be reduced and the Voice of Silence be expressed. "May we speak the silence without breaking it. May we live in the awareness of the background. May we transact Light in terms of joy". Joyfully, we do so many things together and we do not care for personal inconveniences. "May we transact light in terms of joy" and "May we be worthy to find place in the Eternal Kingdom. OM".

This is what I wish to communicate as it came to me this evening and it happened for 45 minutes. I thank you all. Listen to this again and again and that will surely alert you and put you on the track. Celebrate today being the beginning of the 40th year relating to the World Teacher Trust Global. May it be so and may we continue the journey, Namaskarams.
