

112th Master CVV May Call

Master KPK

Friday 28th May, 2021

Discourse 1

(This transcription is only for personal use. It may contain mistakes.)

Master Namaskaram
Master MTA Namaskaram
Master CVV Namaskaram
Master MN Namaskaram
Master EK Namaskaram
Master Namaskaram

Hearty fraternal greetings to all the brothers and sisters who are relating to this program on the occasion of 112th Master CVV May Call. It is popularly known as May Call and Master may call. The purpose of the May Call is to renew the energy that we have been relating to on a regular basis through the morning and the evening hours of diurnal times. While daily we recall, there are some days we recall with greater intent. The intent to receive the Master's energy into us is the basic thread that connects all the World Teacher Trust groups all over the globe. The work of hierarchy is renewed and is even pushed by the energy that came through the Aquarian Master so that the work of the hierarchy is speeded up, the planetary evolution is speeded up, the beings on the planet, their evolution is speeded up. It came up to us and started pushing us from inside. If you look to our lives, ever since we started invoking the name or the sound, truly speaking it is the sound we call the name, when we start sounding the name CVV he immediately starts working on our personalities and brings about significant changes in the personality. This is the one Master who pushes the personality quite a bit to enable the personality to relate to the soul as we all know. We want our personality to align with the soul so that we can function as a soul upon earth. Not only on earth, the soul can function at planetary level, at solar level, at cosmic level, provided it has the related dimensions developed in the personality. It is the personality that requires to be repaired, redress, set to order. It is a difficult work. The master by the help of the supreme brahman and then MTA, the path which he came

through the brahma, together with those two, formed a triangle and released the energy on this planet to conduct all possible changes that bring about the personality adjustment to suit the Soul. Once the personality adjusts to the soul, the soul's evolution is very fast because the personality is the vehicle of the soul.

If you see ever since we related to this energy, how many changes have come in life outside, inside and also the structure of living outside, things have changed from 1910 on a grand speed and we are now into the 112th year. Ever since this energy was transmitted via a supreme being who came from the ashram of Master Jupiter or Agastya. He belongs to a southern ashram. The southern ashram springs into action whenever the Plan is not moving according with the time plan. Therefore, he came, he pushed it for 11 years, 11 months and 11 days, which again is a master number. Then he retreated into his ashram and continues to guide those of us who relate to Master CVV. To them today is a festival, a global festival. Two days back or three days back I spoke of another festival and in this festival, we speak of the inside job and new energy which also gave directions to hierarchy. Please remember, that the energy that Master CVV has brought was picked up by Himalayan Masters including Sanat Kumara. They formed into triangles, conducted this energy thoroughly ever since the Master left the physical for about 20 years and then afresh much of that energy is presented through the teachings of Master DK via Madam Bailey. This is very clear when we know the work of Master CVV through the Hierarchy. Groups have been formed and into all these groups mostly the Master's energy has permeated and is consecrating the work of evolution. He made sure that all of us form the new groups of World Servers, which was envisaged in the books of Master Djwhal Khul. A part from being members of the humanity we also have an identity as new group of world servers. We are entrusted with greater responsibilities than the normal human beings to redress our lives, to become a good example to the surroundings and to transmit this energy into family circles, friends circles and even social circles, not by propaganda but by our methodology of living that we show a state of life where we are seen as something different, something special, something stable, something peaceful, something magnetic that attracts the beings from society and they too would like to join the energy and transform themselves.

This transformation is meant for transcendence but before the transformation, there is a lot to transmute within our personality which the Master said he would himself do it. Unlike the other teachers, the other teachers say, "We teach you. You pick up the practice and you conduct. We supervise", but this is the Master who said: "I not only teach you I enter into you. I enter into you, take a comfortable seat in your heart and conduct your personality" That is the beauty. He said, "you just leave it to me, I'll conduct it for you". He gave the mantra "Miller Form Center". If you visualize Master CVV in your heart center comfortably seated, he will look at you, you look at him, close your eyes, he will start working. You cannot open your eyes until the working is over. Then the work is very peculiar, every day is different. He knows what is to be adjusted, where is to be adjusted. It's all psychic adjustments by which you are gradually reorganized. "This work I do with you until your kundalini at the base center is emptied of all your karma. Then I will recruit you to be a member of the Hierarchy from where you relate to your Master and further conduct your work". So, this work was very interesting to the Hierarchy itself. Sanat Kumara visited Kumbakonam, Lord Maitreya visited Kumbakonam, Mahachohan visited Kumbakonam. Maitreya, Lord Morya, they visited Kumbakonam. Every night the Master's lady was very enthusiastic to see how many seven-footers with lighted bodies entered into Master's room, held discussions and then obtained work they needed to do with this energy and go back and establish systems to conduct the work coming from the Master, which he himself claimed was not his but it came from the most-higher circles. That is the beauty relating to master CVV.

Master CVV enables us to realign our personality with the soul and then the soul to align with the Super Soul. Then the work is on and you are gradually transformed according to your orientation. Just invoke him, he will do the job. He knows how much can be done on a day-to-day basis. He neither over does nor he under does. The underdoing is on account of our mostly non-orientation. So, May Call is to renew our relation with the Master. You see, we need renewals because mind is such a thing, it has its ups and downs. One day you do, the prayer happens, one day it does not. One day we feel we don't have to do this prayer today. It is not our decision it is his decision. He doesn't want you to get in because your outer behavior is not up to his acceptability. Relating to Master CVV has not only in it our decision but also the Master's decision. The Master also decides, no, today you are not fit. Then you cannot relate to prayer. Such a Master who remained a scientist and yet a mystic, who put off all the past religions said, "If you have the conviction just be with it and make sure that you tend to be immortal and you also tend to be Brahman. This is my promise". Promises are not made in teacher-student relations normally. A promise is a commitment. But he is a Master who said, "I promise you all to experience immortality and to experience Brahman, I promise you all the wisdom, I promise you to be very able people, to serve the society. I promise you in such a fashion that things come to you, you don't have to run after material things. I promise that your hand be always in a giving position but not in a receiving position". These are all grand statements he gave and, touch wood, they are all true. I have experienced most of what he said. The beauty is that the Master teaches any wisdom, vistas of wisdom as he requires for you to transmit. All wisdom comes to you from inside, you don't have to run after wisdom. You may get affirmations and confirmations when you look to the books that came before.

He did not deny any initiates but he has put aside all religions. Go with the initiates just don't get into the religions. The religion is distorted by overjealous followers. Everywhere the overjealous followers of a teacher have destroyed through distortion of the teachings that came through the initiates. He promoted the initiates and he announced no religion at once and demonstrated it to the utter surprise of all those who were around him in Kumbakonam, a city of temples. Kumbakonam is a temple city of 32 very grand temples. Very grand 32 temples relating to so many deities. He said, "not necessary", just relate to the sound, that is enough He put off all religious practices. He gave mantras in English in India, remember, and therefore not acceptable in India. No temples, English mantras, in an utterly religious place, who accepts him? He said, "I don't care if they accept or they don't accept, this has come for the globe". India is sunk in religion. It takes time for them to know. He went abroad and he also gave the road map. It happened like that. He said, "First it will go to Europe". Can you imagine? First it will go to Europe, next it will go to South America. Then, it will go to north America. In the meanwhile, the Indians opened their eyes and then they also joined. It is only for those who are looking for truth, shifting their awareness from faith to truth. Faith is one thing to anchor on when you are a dependent, just like you carry your mother's hand until you start walking. Truth is for those who would like to search for it within and around. He made a paradigm shift in his teaching. This is not faith based, this is knowledge based. "As you gain the knowledge you gain the faith. I do not seek your faith. I do not believe so much in bhajans and singing", he said. "It is a dimension of faith. I want you to know God. I want you to know the Universe and all that in a greater manner. I will inform you from within if you relate to me in the prayers. I will connect you even in the outer world with the right persons. I will get you right associations. I will make sure you don't waste time with the wrong books. You will reach upon the right books that guide you". See, everything is guided from within and you follow the teacher, you get direct wisdom from him. You get directions from him through which you meet the right persons, you get to the right places, you don't waste any of your time and he makes sure you are generally cut off from the childish aspects of the human being like going around, eating everywhere and doing nothing, like a child. He makes your life purposeful.

The will, the little will that we invoke from the Point of Will, he brings out that will from you and makes you purposeful. He does so many things in you and you can see how he gradually shifts you away from something to something which is purposeful to you and purposeful to others and lead you in an eternal path. All this is done in a semi-known, semi-unknown way. Something is known, something is unknown. You can recall your lives ever since this energy started touching you in Europe, how many changes have come. How things have shifted in the outer life. How some associations are gone, how certain new associations have come to be. We found to be more and more permanent ways; in some temporary basis you are made still unstable. You don't have to run around for things. All your personality life is addressed, readdressed, to make sure that your soul fulfills its purpose in the planet in that you grow. In that you contribute something to the world. In that it enables you to join the Hierarchy and join in an eternal work. Therefore, May Call is important for us. He himself conducted May Calls. He conducted to start with, with 7 persons and today we are many. Our count is never cut because there are many who are not noted by us. He has innumerable mediums, channels which he prepared who eventually would be functioning as souls. Please remember, as you start functioning as a soul and when he is satisfied you are fairly functioning as a soul, he will entrust you, according to your soul quality to a Master of wisdom to whom you belong. That's his beauty. He just retains very few with him because his work is to assist the Hierarchy. Master Jupiter, which is also called Agastya, he assisted this creation in a number of times. I have given a book to you on Master Jupiter, kindly go through once again. Anything related to Master Jupiter, Master CSG, Master CVV, you need to relate quite a lot. It enables reorganization of personality. The other teachings enable you to strengthen your soul so that you can also work with its personality. These are the two dimensions. There are Masters who are working tailoring your personality. There are Masters who are enforcing your soul so the soul also works with its personality. These are the dimensions we have. That is why Master CVV said, "I have come to repair your vehicle. My job is to repair your vehicle and make sure you function well in three worlds". In three worlds, planetary, solar cosmic meaning, subtle body, causal body and physical body. These three bodies are Master's promise, provided we just relate to him through prayer and whatever you receive as thoughts, make note of them and try to transform them into your daily actions. The information he gives is a two-way information. One is work on the ground. Another is to relate to it and ideate with it and ponder over it. That is how he gives. That is why we are today relating to the Master energy from this evening until tomorrow evening and the day after tomorrow in the morning. In the initial years I conducted May Calls for nine days also. Two weekends together May Call was done. According to groups inclination and readiness. Then slowly it is reduced to five-day May Call. Then a three-day May Call. We now in this May Call, commence this evening and it goes on tomorrow, the May Call and concludes the next day. In spirit you should continue in a day-to-day basis because the Master may call you through any prayer. Make note of it. We celebrate this May Call as our gratitude to the Master in the best possible manner we can. That is all. So, the work of the personality is addressed, it is set to relate to the soul in you, which we call the Master in you, whom we call the Christ in you or Krishna in you or Ishvara in you. This is the first step, that you as a personality relate to the Master in you and that Master connects you to the Universal Master. For all, the basic requirement is to redress your personality. It has to be tailored. He will do it so well. He is the Master tailor, is the Master mechanic. He knows who should be repaired where. He has different approaches with the different people and you will know only when the process is complete because he has no time to talk to you, to discuss with you. It is enough for him if you invoke him. Once you have related to your soul, he lets you into the grander scheme of things and when you need him, you can call him. He won't speak to you, he lets you to a line of the Sunray, which are seven rays. According to them, the soul progresses until it goes up to synthesis as its expressed by Lord Maitreya and then, to Sanat Kumara. These are certain dimensions. That is why he works from the very base of the being. That is why Master CVV Yoga is considered to be Kundalini Yoga. It is called Satya yoga

because he stands by you until you realize the truth, until you realize the truth and you see no difference between him and Brahman, you see no difference between him and Sanat Kumara. Meaning Brahman is Sanat Kumara, Brahman is Maitreya, all is Brahman. Among them there are certain beings who are guiding you to Brahman. Not all Devas guide you to Brahman. Not all Gurus guide you to Brahman. There are gurus for every branch of wisdom but there are Satgurus who stand by you, until you realize the Brahman in you. That is the work of master CVV, which we are trying to recall this evening, tomorrow and after tomorrow as far as I am concern with you.

I picked up three points to relate to all and I let the other time to all others to relate because they too have gained over these three decades so much of knowledge. I started this work in 1971 with Master CVV. I started in 1981 in Europe, 1992 in South America, 1995 in North America. In all these years, the basic current flowing is Master CVV. In the World Teacher Trust Master CVV Yoga is the main stay, all other things are optional. Your wisdom gaining happens, other practices is up to you, according to your personality; but relating to the Master is the most important. This is what I realized in my life. You have seen me for 40 years, how things have changed. Before that, a very successful professional accountant. A successful professional accountant is stand out by the Master for some use to the fellow beings and in the process, I found so many friends all over the world. I don't think any man has that wealth of so many friends, like you have school friends. I have so many friends all over the globe, I can tell you, none of you have them. Why, because I started with all of them at the grass root level. You also can do it by relating. You should not become islands, you should become the main land, the globe. We tend to be islands, individual islands, group islands, national islands. There are people who mind their own business, they don't relate to groups. There are people who relate to groups, small and big, but they are only with their groups. There are groups who would like to relate to others. When you all relate to all, you know, that is the wealth. The wealth of friendliness beats out every other wealth and the trust that we develop between us is the best wealth that we can develop. We can dump all suspicions, all mistrust and all goes well in the name of the Master whom we call CVV. He clears the limitations of all our personalities. He doesn't like us to suffer from limitations.

Every limitation makes you a segregation from the fellow being. No one accepts the second being. Jesus Christ when he came, they said to him, "Master, how do we relate to you?" He said, "If three of you are in harmony, you have my presence". Three of you. So, keep on developing that relationship which Gemini speaks of. Gemini speaks in a way that you relate to all and gain their trust. Gain the trust of the beings. As many beings' trust you gain so much you are wealthy. The wealth of trust is until now not known to humanity, not known to intellectuals, not known to many aspirants. Only disciples know that money is not the base. Friendliness and trust are the base. As long as you depend on money you don't trust people. This I can tell you. When you trust people, your wealth grows. Suspicion, doubt, fear, all these have come to us because of money. We are so much sticky with money. From money to Master. Gradually he shifts you in you. That is the beauty of the Master. That is why most of us who had not moved from our places we almost moved all over the continents. Most of our group members they have been there in India. They have been there in various countries in Europe. They have been there in South America, they have been there in Shasta, North America. Has he not moved you, has he not put you beyond your money constrains?

There are so many dimensions in this Yoga. This Yoga is the mainstay. Wisdom is but an engagement according to him. Engagement with the Brahman is primary. Engagement with wisdom keeps you in good stead. Then your abilities to serve give you many more dimensions and you are unconsciously cut off from useless worldly activity. None of our members are uselessly engaged and spoil their time. They are only concern about doing some service or doing some study of wisdom coming from the

Hierarchy or they relate to their soul in them through varieties of prayers. All this is our consecration to the Master and may the Master call on us and bless us. The sound key is CVV. CVV himself did not give it until his last month. He only said, "Master Namaskaram". Master CVV is a very advanced disciple from the ashram of Master Jupiter who has a facility up to Sirius. The Jupiter Ashram only has great access to Sirius. Sirius is the center of the Guru or the Teacher for our system. At the solar plane the father is the Great Bear. The mother is Pleiades. The teacher is Sirius. Jupiter is such a grand Master. He has a direct access to Sirius. His work extends up to Sirius. Likewise, Lord Maitreya, he has the facility to relate up to the Great Bear. These are some dimensions I mentioned in the book Aquarian Master. So, through the Teacher system he got it. From Sirius to our planet via the Sun sign Leo. Sun sign Leo through Regulus, which is called Magha, the star Magha, it came to our system and from Magha he was born in the constellation Dhanishta, which is in Aquarius and he has anchored it as it came on 31st March in the constellation Anuradha. I was speaking in the story of Nala, it is all coincidental, about these constellations. I was also speaking about these constellations when I spoke to you in the Vaisakha festival.

I know when I speak of Master CVV, let me tell you, he is the Brahman, the Omnipresent, Omnipotent, Omniscient One, which I always say whenever we meet, the Omnipresent One, the Omniscient One and the Omnipotent One is called God in all Scriptures. That God is male-female. Beyond creation, it is undefinable. In creation, it is the male-female God, Shiva-Shakti. There are so many names, we get confused. That is why he gave a direct terminology, a fresh one, easy to understand, in English by all the global citations. He said he came from Brahman. He was picked up by Aswin Varuna. Varuna, the Aswin, passed it on to Sirius. Sirius, which is presided by Dattatreya, he passed it on to Uranus. Uranus functions for five solar systems, not only for our solar system. Uranus passed it on to the constellation Magha, which is called Regulus. Regulus, which is one of the stars relating to us, he passed it on to the Sun sign Leo. It is in Leo. In Leo it was picked up when master CVV was born in 4th August and given into our solar system by a comet called Haley Comet. Master CVV, was born in Aquarius moon, Dhanishta constellation and sun in Leo. That is the beauty. Master CVV was born on the full moon point in Leo. So, his moon is in Aquarius, his Sun is in Leo, it was easy to pick it up. He himself resides for us in Nilagiris. To our blessing, he revealed to us and now we are relating to that mountain very frequently. You may not visit it but the pictures are sent on a daily basis to so many groups by an enthusiastic care taker whom we have appointed there to take care of the resort, which is meant for all the global groups. His life took to a paradigm shift. He was somewhere near Visakhapatnam, hundred miles away. He took the call and went all the way to reside in Kodanadu, the mountain resort, where he stays there throughout the whole year. Facing all the seasons, which are sometimes very tough. But he has the best of the Presence of the Mount and the beauty of the visit of the energies. Last two days, during Vaisakh festival, a grand peacock visited the place. It attended Ganesha's temple. It attended Shiva's temple. It was doing dance within the compound, which was a delight. The pictures were out in circulation so they find their own expression. These things do happen.

Coming to the point, the Master is there in an Ashram of the Mount because it is the Ashram of Agastya on the planet. He has other ashrams all over the globe. That is why we went everywhere and that I have mentioned it in all the books. Iguazu, I saw it. Shasta, I saw it. Montserrat, I saw it. All mountains and the group lives that we conducted they were all picked and chosen according to the energies. Engelberg, Axenstein. The energies are what we have to relate to but not to the physical things. What the physical things represent, that we relate to. That is occultism. So, the Master who is already an advanced Master in the Ashram of Agastya is not a joke. To him it was easy to pick it up from Haley Comet. He took it and he called the energy as the Master, meaning the Brahman. The path, through which they all came, what is the path, is the female aspect of the God. Then, Varuna.

Then Aswin. Then the system of Sirius. Then Uranus. Then Regulus and the star Magha. Then Aquarius where the moon was in Dhanishta anchored in Scorpio, Anuradha. He worked all these energies and he called that as Namaskarams Master. He called the whole path as MTA. Normally of MTA I would not speak. Master CVV is what we generally speak of. The Master gave first the mantra Master Namaskaram. In all those 11 years he made so many notes. Very mystical. Until date, nobody could decipher them. Very mystical, a completely different language. His followers told him, "You are the Master, from who are you receiving? He said, "These are all the instructions that are coming from MTA. "What is MTA?" they asked. "Master Turned Atom, meaning Brahman has come down once again. Master turned atom. The path is MTA. I respect the Master. I respect the path through which the Master came". That is what he said to his initial followers. Then, whatever he wrote he said, "these are all coming from MTA" The instructions of MTA I gave to all the groups in Telugu and in English. The Mystic Mantras were given to all the groups. The Occult Meditations are given to all the groups. The descend of the Master and his work is given to all the groups through The Aquarian Master. The 30 New Dimensions of Yoga, which the Master gave, I gave it to you as the New Yoga According to Master CVV. I gave Saturn Regulations. All this is done at the instance of the Master because those are the relevant things these groups have to follow. All that help you along with the sound of CVV because the sound CVV gives you inner silence. If you don't get inner silence the rest of the things would only be vocal utterances. Would not cause the required alchemical changes that he intends to give us.

There was some time where people with fervor related to Occult Meditations, then they stopped. For some fervor they do Dip Deep. For some fervor they do Saturn Regulations. At least, continue with one or the other at all times. One or the other, one or the other. Here, we have a high official, government official, tax official. He did Saturn regulations 30 rounds. Then his life was totally changed. He remains to be a tax official for outer purposes but the inner man has totally changed. Likewise, I know among our members who did for three years Occult Meditations regularly and there are changes that have happened in their life and there have been paradigm shifts. It happens. Likewise, Mystic Mantras. For all this, we need to relate and gain the silence through the Prayer, which CVV gives. The sound CVV establishes the inner silence, it gives the feel, it gives the touch, it gives the fragrance of the Prayer. Thereafter, you get all directions from within. Therefore, relating to them and regularly invoking also demonstrate our commitment. See, when you take to these practices you are taken to a commitment. You have pledged to be something better than what you are. Until we reach Brahman we cannot relax. Never be satisfied with you. That hunger should be there. Until you reach Brahman you should relate regularly setting your own timetables to one Master, and another Master, and another Master. But with every Master, if you wish to relate and feel the touch and the fragrance and later the audition and then the sight, you can work with it. Starts with first the fragrance because it is objectivity. Then, the touch, then the taste. Then the sight and then the audition or then the audition and then the sight. That is how, when it happens, a deeper door in you is opened.

The fundamental requirement is mental silence. When we sit quiet, is the mind silent or is it noisy bringing in so many thoughts about so many things relating to your personality. When there is noise in the mind, you are still in darkness. "May the sound I utter reveal the Light in me" May it dispel the darkness of noise we do. The noise is not only vocal, it is mental. The mental noise, when it is dispelled, Light appears. Before light appears, you feel some fragrance, the touch of the master, some kind of inner sensations that make you joyful. Then come these steps, you relate well and the vistas are open to you. That is why the Master says, "Show your commitment, I am ready to show my commitment. You show your commitment, I come forward with greater speed. I am the first one to reach you. I come from beyond through your Sahasrara, through all the centers, and stay with you

and I form your center and conduct the work". The verticals are set in order. Miller Form Center. Verticals Leveled. Meet Centers. All centers are connected, what more do you want? He resists your moving sideways. All this is given via the mantras by him. I am not narrating because I know you know them. My job is to remind about them because I am reminded to remind you. I am given the duty to remind you therefore, I remind you. I stay in this manner and this you can develop. This is a technique to relate to any Master of wisdom. This is the Master that guides our World Teacher Trust and leads you to all the hierarchical members. Therefore, this is not religion.

Master CVV responds very fast because he is an Aquarian Master. He transforms very fast when you follow the three rules. What are the rules? One is prayer, morning and evening. Second thing, if you need anything, you tell him in the prayer. Don't beg outside. He said, "when you are with me, don't set your hand like this [like a beggar]. I want to see you are a giver but not a receiver. Whatever you give don't think of receiving. That is why his very first utterance of Occult Meditation is "Be a giver, be a Sun". He is a very grand intelligence. "Whatever you have, give, whatever you want, ask me, don't ask others. Don't inform others about what you want". The third thing is, make sure that the entire day is meant for you to be of help to the surroundings. Don't be a nuisance to the surroundings. These are the fundamental regulations of Master CVV Yoga.

I made a note because I don't want to go in a kite fly but somehow, when I sit here and open, it goes by itself. Please note, especially this is for Indians not so much for western brotherhood, because master said "let all your religious practices be dumped". Dumped. That is why Indians dumped him. But it is their misfortune. The moment the energy touched him he dumped all practices. This is enough. Don't carry the luggage of the religion, the burden of the religion. Just leave it when you gain conviction. You gain conviction when you follow the three rules. In the West most of the members were not satisfied with what they were told through their religions. They were looking for something which is beyond. Thanks to Madame Blavatsky. She inaugurated the work through universal understanding of truth. She inaugurated the work to give the universal laws of alternation, of periodicity, the even flow of evolution and involution, the time cycles, the key to sound, the key to utterance, so many Vedic keys. She gave out to the west and opened a vista of knowledge into which many walked in because they found limitations with the religion. That is why it was easy for them to pick up this energy. Much better than the Indians, I am saying publicly today

In India the tradition is very strong, but the tradition also gives the way to the Universe. That is why the tradition is also honored. But then, there is a direct path to Brahman that discharges you from the lever of varieties of rituals and gives you direct access to Vedic keys and Vedic wisdom. Should we not be intelligent enough to link up to it than to hang on to the faith? What is required is shifting from faith to knowledge. Faith to knowledge, enquiry about the truth. Truth and enquiry about the truth is what is needed to work with the Yoga of Master CVV. It dispenses with all Indian traditional practices. He said, "I don't even give you mantras in Sanskrit, English is going to be a global language" and he was very good with English. He connected also with the Theosophical Society. He opened a Theosophical Society in Kumbakonam also. He was very non-traditional, not understood by the locality. They left him. He felt all the better, "What should I have people who hang around me not knowing anything?"

The work of Master CVV is mostly for truth seekers and he gives the knowledge to move towards the truth without the drudgery of rituals. Naturally, the time passes by, people join, they bring their luggage with them. Whenever Indians were doing this in America, I told them, "You will not be able to contact the western brotherhood to do these things. Be with the Master. Be with the wisdom of the Master and the wisdom that came through Master EK. That is helpful to you. Don't bring temples.

Don't bring too many rituals. Don't bring the past into the present. There is a new future, which is planned by the Hierarchy. The new land is considered to be America. The changes happen from there. Let us go with the stream, not take to the streams in which we have been swimming before. It requires great courage for Indians to do it.

Master EK, who belongs to Vaishnavism wisdom, he has put it off and joined Master CVV's work. Master MN, he was also Vaishnavite meaning, they worship Vishnu and Krishna. Master CVV himself was worshipping a beautiful Krishna idol till then. He gave it away the moment this energy visited because, "let us get into Advaita, let us get into Vashista Advaita and serve the Universe. Let us not limit to certain traditional practices". So, he raised above religion. Madam Blavatsky all through her teachings and tools and writings, she was telling people, "Get into truth, don't get into the concepts of the truth, Be with the truth. Try to know afresh". She gave the message also coming from Vedic dictum, "Satya Nasti Paro Dharmaha" meaning, "There is not religion higher than truth". There is no religion higher than truth is the message of Madame Blavatsky, which is there in Sanskrit. There are so many such statements in Sanskrit from beings like Shankaracharya. They are already informed. There are people who are informed. He said, "Ekam sat vipra bahuda vadanti", which is also given in our books. We picked it up, all the original statements, as they came from Vedas and Upanishads. All I give you also is only from those who have risen above the religion. Nothing coming from the religion.

The idea is that there has been truth extremely well expressed by dead beings all over the globe. We have to pick them up and relate to them. That is why we speak of Pythagoras. We speak of Jesus the Christ. We speak of all those initiates. We speak of all the Masters of wisdom who led the practices beyond the religions. But note that Veda is not a religion, it is an ancient wisdom that leads you to Brahman. Veda contains many such aphorisms. Those are always remembered. In the Bhagavad Gita also Krishna says, "THAT is the truth". That is all he says, "Tat Sat", That is the truth. So, we add Om to it, Om Tat Sat. There are some people who say, Hari Om Tat Sat. It keeps on diluting. We don't take the caption as such, you know. Indians cannot drink coffee without adding milk and also some sugar. Likewise, the religion added something else, that something becomes more important and the truth is lost from time to time and we have to get back to that truth. So, don't get away into details. Be on the main road to reach the truth. That is a task to be done to a digressing humanity. A humanity that is digressing once again, tilting more and more towards power, towards division. We have to move towards love, towards union, towards integration, to see the One in all. That is what wisdom says. So, whenever these things happen, someone has to come and inform; that is why the work of master CVV has come to be.

I just check out in two minutes, so see whatever I intended to tell you. I did it. For this evening we are through. Tomorrow after you complete your prayers, I'll relate to you again and then, the Indians, who are ardent followers of the path of Master CVV also relate to it. Wherever they relate it is their free will, their choice. May the Master visit them, bless them, guide them into the path of Eternal Truth.

Namaskaram Master CVV to Your Lotus Feet.
